

# Report of the Independent Auditor

---

## **TO THE SHAREHOLDERS OF WHELOCK AND COMPANY LIMITED**

*(Incorporated in Hong Kong with limited liability)*

We have audited the consolidated financial statements of Wheelock and Company Limited (the "Company") set out on pages 45 to 125, which comprise the consolidated and company balance sheets as at 31 December 2008, and the consolidated profit and loss account, the consolidated statement of recognised income and expense and the consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes.

## **DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS**

The Directors of the Company are responsible for the preparation and the true and fair presentation of these financial statements in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the Hong Kong Companies Ordinance. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and the true and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

## **AUDITOR'S RESPONSIBILITY**

Our responsibility is to express an opinion on these financial statements based on our audit. This report is made solely to you, as a body, in accordance with section 141 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and true and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

## ***Report of the Independent Auditor***

---

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **OPINION**

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 December 2008 and of the Group's profit and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the Hong Kong Companies Ordinance.

**NOTES TO CONSOLIDATED CASH FLOW STATEMENT**

**a) Reconciliation of operating profit to cash generated from operations**

	<b>Year ended 31/12/2008 HK\$ Million</b>	Period ended 31/12/2007 HK\$ Million
Operating profit	<b>9,453</b>	10,428
Adjustments for:		
Interest income	<b>(324)</b>	(244)
Dividend income from investments	<b>(220)</b>	(495)
Depreciation	<b>1,161</b>	1,094
Amortisation	<b>234</b>	182
Net profit on disposal of available-for-sale investments	<b>(133)</b>	(1,790)
Net profit on disposal of properties	<b>(19)</b>	(12)
Loss/(profit) on disposal of fixed assets	<b>4</b>	(32)
Impairment loss on fixed assets/programming library	<b>29</b>	–
Exchange differences/others	<b>(35)</b>	234
<b>Operating cash inflow before working capital changes</b>	<b>10,150</b>	9,365
Increase in properties under development for sale	<b>(9,327)</b>	(6,303)
Decrease in completed properties for sale	<b>4,956</b>	1,736
Increase in inventories	<b>(15)</b>	(12)
(Increase)/decrease in trade and other receivables	<b>(779)</b>	86
(Decrease)/increase in deposits from sale of properties	<b>(1,509)</b>	1,629
Increase in trade and other payables	<b>478</b>	680
Increase in derivative financial liabilities	<b>76</b>	130
Other non-cash items	<b>(18)</b>	(25)
<b>Changes in working capital</b>	<b>(6,138)</b>	(2,079)
<b>Cash generated from operations</b>	<b>4,012</b>	7,286

**b) Issue of shares by subsidiaries**

Cash inflow from issues of shares by subsidiaries to minority interests in 2008 included proceeds of HK\$4,512 million from minority shareholders of The Wharf (Holdings) Limited and HK\$453 million from minority shareholders of Harbour Centre Development Limited for their rights issues in January 2008 and March 2008 respectively.

# Notes to the Financial Statements

## 1. FINANCIAL YEAR END DATE

The Company changed its financial year end date from 31 March to 31 December in the last financial period. The comparative figures, which cover a period for the nine months from 1 April 2007 to 31 December 2007, cover Wharf's financial statements for the twelve months from 1 January 2007 to 31 December 2007. As a result of the change in the year end date of the Company, all the comparative figures and related notes are therefore not entirely comparable with those of the current year. Further details are set out in note 1 to the 2007 annual report.

### 3. OPERATING PROFIT

#### a) Operating profit

	Year ended 31/12/2008 HK\$ Million	Period ended 31/12/2007 HK\$ Million
Operating profit is arrived at after charging/(crediting):		
Depreciation:		
Assets held for use under operating leases	96	91
Other fixed assets	1,065	1,003
	<b>1,161</b>	1,094
Amortisation:		
Programming library	142	131
Leasehold land (Note 12)	87	47
Other intangible assets (Note 14)	5	4
	<b>1,395</b>	1,276
Impairment losses on fixed assets/programming library	29	–
Impairment loss on trade receivables	84	26
Staff costs	2,813	2,593
Including:		
Contributions to defined contribution pension schemes including MPF schemes and after a forfeiture of HK\$2 million (2007: HK\$5 million)	112	94
Income recognised in respect of defined benefit pension schemes (Note 19)	(16)	(11)
Auditors' remuneration:		
Audit services	21	20
Other services	4	6
Cost of trading properties sold	4,989	1,706
Net foreign exchange loss, including impact of forward foreign exchange contracts (Note)	137	38
Rental charges under operating leases in respect of telecommunications equipment and services	98	101
Rental income less direct outgoings	(5,712)	(4,674)
– including contingent rentals	(632)	(459)
Interest income	(324)	(244)
Dividend income from listed investments	(126)	(313)
Dividend income from unlisted investments	(94)	(182)
Loss/(profit) on disposal of fixed assets	4	(32)
Rental income under operating leases in respect of owned plant and machinery	(61)	(81)

Note: Apart from the above exchange differences, there was a net exchange gain of HK\$987 million (2007: HK\$1,083 million) arising from the translation of the net investments in WPSL and certain China subsidiaries, associates and jointly controlled entities, which has been dealt with as an equity movement.

**b) Directors' emoluments**

	Salaries, allowances and benefits				Year ended	Period ended
	Fees	in kind	Discretionary bonuses	Contributions to pension schemes	31/12/2008	31/12/2007
					Total emoluments	Total emoluments
HK\$'000	HK\$'000	HK\$'000	HK\$'000	HK\$'000	HK\$'000	
<b>Board of Directors</b>						
Peter K C Woo	239	15,056	14,000	24	29,319	25,445
Gonzaga W J Li	120	4,925	7,000	–	12,045	10,822
Stephen T H Ng	60	4,482	9,000	264	13,806	12,508
Paul Y C Tsui	60	2,596	2,400	12	5,068	3,928
<b>Independent Non-executive Directors</b>						
Alexander S K Au	80 <sup>(ii)</sup>	–	–	–	80	60

Kenneth W S Ting	80 <sup>(ii)</sup>	–	–	–	80	60
	<b>719</b>	<b>27,059</b>	<b>32,400</b>	<b>300</b>	<b>60,478</b>	<b>52,883</b>
Total for 2007	580	24,033	28,000	270		52,883

Notes:

- (i) There were no compensation for loss of office and/or inducement for joining the Group paid/payable to the Company's Directors in respect of the year ended 31 December 2008 and the nine months ended 31 December 2007.
- (ii) Includes Audit Committee Member's fee for the year ended 31 December 2008 of HK\$20,000 (2007: HK\$15,000) received/receivable by each of relevant Directors.

**c) Five highest paid employees**

Set out below are analyses of the emoluments (excluding amounts paid or payable by way of commissions on sales generated by the employees concerned) for the year ended 31 December 2008 of 2 employees (2007 : 2) of the Group who, not being Directors of the Company, were among the top five highest paid individuals (including persons who held the office of Directors of the Company at any time during the year as well as other employees of the Group) employed by the Group.

**(i) Aggregate emoluments**

	<b>Year ended 31/12/2008 HK\$ Million</b>	Period ended 31/12/2007 HK\$ Million
Salaries, allowances and benefits in kind	<b>16</b>	14
Discretionary bonuses	<b>19</b>	18
	<b>35</b>	32

**(ii) Bandings**

	<b>Year ended 31/12/2008 HK\$ Million</b>	Period ended 31/12/2007 HK\$ Million
<b>Bands (in HK\$)</b>		
\$10,000,001 - \$10,500,000	–	1
\$11,000,001 - \$11,500,000	<b>1</b>	–
\$21,000,001 - \$21,500,000	–	1
\$23,500,001 - \$24,000,000	<b>1</b>	–
	<b>2</b>	2

#### 4. OTHER NET INCOME

	Year ended 31/12/2008 HK\$ Million	Period ended 31/12/2007 HK\$ Million
Net profit on disposal of available-for-sale investments	133	1,790
Net profit on disposal of properties	19	12
Others	18	28
	<b>170</b>	1,830

Included in the net profit on disposal of available-for-sale investments is a net revaluation surplus, before deduction of minority interests, of HK\$418 million (2007: HK\$1,009 million) transferred from the investment revaluation reserves.

#### 5. NET OTHER (CHARGE)/CREDIT

	Year ended 31/12/2008 HK\$ Million	Period ended 31/12/2007 HK\$ Million
Write-back of provisions for properties	146	184
Impairment losses on available-for-sale investments	(1,375)	(81)
	<b>(1,229)</b>	103

## 6. FINANCE COSTS

	Year ended 31/12/2008 HK\$ Million	Period ended 31/12/2007 HK\$ Million
Interest charged on:		
Bank loans and overdrafts repayable within five years	965	1,006
Other borrowings repayable within five years	51	158
Bank loans repayable after five years	116	88
Other borrowings repayable after five years	119	55
Total interest charge	1,251	1,307
Fair value cost on cross currency interest rate swaps	508	96
Fair value cost on interest rate swaps	104	–
Other finance costs	67	51
Less: Amount capitalised	1,930 (235)	1,454 (242)
	1,695	1,212

- a)** Interest was capitalised at an average annual rate of approximately 1.6% (2007: 2.2%).
- b)** Included in total interest costs are amounts totalling HK\$1,208 million (2007: HK\$1,167 million) in respect of interest bearing borrowings that are stated at amortised cost.
- c)** The above interest charge has taken into account the interest paid/receipts in respect of interest rate swaps and cross currency interest rate swaps.

## 7. SHARE OF RESULTS AFTER TAX OF ASSOCIATES

The share of profits of associates decreased to HK\$7 million (2007: HK\$269 million). Profit contribution from Modern Terminals' investment in Shekou increased. However, the share of losses in China property development undertaken by certain associates of Wharf and WPL increased after impairment provisions.

Excluding the property provisions, the share of associates' profit actually rose by 10% to HK\$295 million (2007: HK\$269 million).

## 8. TAXATION

Taxation charged to the consolidated profit and loss account represents:

	<b>Year ended 31/12/2008 HK\$ Million</b>	Period ended 31/12/2007 HK\$ Million
<b>Current income tax</b>		
Hong Kong profits tax		
Provision for the year/period	<b>1,063</b>	1,263
Underprovision in respect of prior years (Note 8(h))	<b>254</b>	352
Overseas taxation		
Provision for the year/period	<b>422</b>	226
Overprovision in respect of prior years (Note 8(i))	<b>(241)</b>	–
	<b>1,498</b>	1,841
<b>Land appreciation tax ("LAT") in the People's Republic of China ("PRC")</b>	<b>30</b>	239
<b>Deferred tax</b> (Note 27)		
Change in fair value of investment properties	<b>495</b>	2,535
Origination and reversal of temporary differences	<b>117</b>	253
Effect on reduction in tax rate on deferred tax balances	<b>(812)</b>	(201)
Benefit of previously unrecognised tax losses now recognised	<b>(127)</b>	(28)
	<b>(327)</b>	2,559
	<b>1,201</b>	4,639

- a)** The provision for Hong Kong profits tax is based on the profit for the year as adjusted for tax purposes at the rate of 16.5% (2007: 17.5%). In 2008, the Hong Kong SAR Government enacted a reduction in the profits tax rate from 17.5% to 16.5% for the fiscal year 2008/09.
- b)** Overseas taxation is calculated at rates of tax applicable in countries in which the Group is assessed for tax.
- c)** In January 2009, The Singapore Government announced a proposed reduction in the corporate income tax rate from 18% to 17% with effect from the fiscal year 2009. This will trigger a recalculation of the net deferred tax liabilities as at 1 January 2009 of WPSL, mainly for the investment property revaluation surplus, which would likely be reduced by approximately HK\$19 million and impact the Group's 2009 financial statements.
- d)** In March 2007, the new Corporate Income Tax Law was enacted in the PRC whereas the standard PRC Corporate Income Tax ("CIT") rate was revised from 33% to 25%.
- e)** Under the Provisional Regulations on LAT implemented upon the issuance of the Provisional Regulations of PRC on 27 January 1995, all gains arising from transfer of real estate property in the PRC effective from 1 January 1994 are subject to LAT at progressive rates ranging from 30% to 60% on the appreciation of land value, being the proceeds of sales of properties less deductible expenditures including borrowings costs and all property development expenditures.
- f)** Taxation payable in the consolidated balance sheet is expected to be settled within one year.
- g)** Tax attributable to associates and jointly controlled entities for the year ended 31 December 2008 of HK\$30 million (2007: HK\$23 million) is included in the share of results after tax of associates and jointly controlled entities.
- h)** Wharf group is currently in the process of providing information to the Inland Revenue Department of HKSAR in respect of tax enquiries from Wharf group's perspective primarily relating to certain interest expenses deductibility as claimed by some property investment owning companies. In view of the fact that these enquiries are at the stage of collecting information, provisions have been made only to the extent that the estimated tax assessments have been issued and the tax risk that can be reliably estimated. In 2008, a provision of HK\$292 million (2007: HK\$336 million) was made for the disputes as part of the underprovision for income tax. However, the final outcomes are subject to uncertainties and resulting liabilities may or may not exceed the provisions.

## Notes to the Financial Statements

- i)* Tax overprovision in respect of prior years is mainly attributable to WPSL's write-back of tax provided on profit on disposal of Hamptons Group Limited following the ruling given by the Inland Revenue of Singapore ("IRAS") in November 2008 that the disposal profit was capital in nature and utilisation of tax losses which have been agreed by IRAS in early 2009 against prior years' tax paid. In addition, the Group also recognised a deferred tax asset of HK\$104 million on the tax losses agreed by the IRAS.
- j)* Reconciliation between the actual total tax charge and profit before taxation at applicable tax rates

	<b>Year ended 31/12/2008 HK\$ Million</b>	Period ended 31/12/2007 HK\$ Million
Profit before taxation	<b>8,699</b>	20,493
Notional tax on profit before taxation calculated at applicable tax rates	<b>1,628</b>	3,762
Tax effect of non-deductible expenses	<b>425</b>	158
Tax effect of non-taxable income	<b>(172)</b>	(241)
Underprovision in respect of prior years	<b>13</b>	352
Tax effect of tax losses not recognised	<b>225</b>	74
Tax effect of unrecognised tax losses utilised	<b>(113)</b>	(93)
Tax effect of previously unrecognised tax losses now recognised as deferred tax assets	<b>(127)</b>	(28)
Effect on reduction in tax rate on deferred tax balances	<b>(812)</b>	(201)
LAT on trading properties	<b>30</b>	239
Deferred LAT on change in fair value of investment properties	<b>104</b>	617
Actual total tax charge	<b>1,201</b>	4,639

## 9. PROFIT ATTRIBUTABLE TO EQUITY SHAREHOLDERS

Profit attributable to equity shareholders for the year is dealt with in the financial statements of the Company to the extent of HK\$257 million (2007: HK\$260 million).

## 10. DIVIDENDS ATTRIBUTABLE TO EQUITY SHAREHOLDERS

	Year ended 31/12/2008 HK\$ Million	Period ended 31/12/2007 HK\$ Million
Interim dividend declared and paid of 2.5 cents (2007: 2.5 cents) per share	51	51
Final dividend proposed 10.0 cents after the balance sheet date (2007: 10.0 cents) per share	203	203
	<b>254</b>	254

- a) The proposed final dividend after the balance sheet date has not been recognised as a liability at the balance sheet date.
- b) The final dividend of HK\$203 million for the period ended 31 December 2007 was approved and paid in 2008.

## 11. EARNINGS PER SHARE

The calculation of basic and diluted earnings per share is based on profit attributable to equity shareholders for the year of HK\$3,432 million (2007: HK\$7,615 million) and 2,032 million ordinary shares in issue throughout year ended 31 December 2008 and nine months ended 31 December 2007.

## 12. FIXED ASSETS

	105,836	5,782	125	–	3,550	3,775	119,068

**d) Properties revaluation**

The Group's investment properties were revalued as at 31 December 2008 by Knight Frank Petty Limited and CB Richard Ellis (Pte) Ltd, independent firms of property consultants, who have appropriate qualifications and experience in the valuation of properties in the relevant locations, on an open market value basis, after taking into consideration the net rental income allowing for reversionary potential and the redevelopment potential of the properties where appropriate.

The surplus or deficit arising on revaluation is recognised directly in the consolidated profit and loss account.

**e) Impairment of fixed assets**

The value of properties, other than investment properties which are revalued annually, is assessed at each balance sheet date for indications of impairment with reference to valuations undertaken by management. Such valuations assess the recoverable amount of each property based on its value in use (using relevant discount rates) or on its net selling price (by reference to market prices), depending upon the anticipated future plans for the property. As a consequence of this exercise, as at 31 December 2007, a deficit of HK\$157 million previously recognised in the consolidated profit and loss account was reversed due to the anticipated increase in the recoverable amount of the properties primarily to reflect the prevailing property market conditions. No such provision was made or written back in 2008.

**f)** The Group leases out properties under operating leases, which generally run for an initial period of one to seven years, with an option to renew the lease after that date at which time all terms are renegotiated. Lease income may be varied periodically to reflect market rentals and may contain a contingent rental element which is based on various percentages of tenants' sales receipts.

**g)** The Group's total future minimum lease income under non-cancellable operating leases is receivable as follows:

	<b>Group</b>	
	<b>2008</b> <b>HK\$ Million</b>	2007 HK\$ Million
Within 1 year	<b>5,332</b>	4,418
After 1 year but within 5 years	<b>6,360</b>	4,841
After 5 years	<b>520</b>	226
	<b>12,212</b>	9,485

**13. INTEREST IN SUBSIDIARIES**

	Company	
	2008 HK\$ Million	2007 HK\$ Million
Unlisted shares, at cost	3,495	3,495
Amounts due from subsidiaries	6,145	1,393
Amounts due to subsidiaries	–	(339)
	<b>9,640</b>	<b>4,549</b>

Details of principal subsidiaries at 31 December 2008 are shown on pages 121 to 124.

Amounts due from subsidiaries are unsecured, non-interest bearing with no fixed terms of repayment and hence are classified as non-current as these are not expected to be recoverable within the next twelve months. Amounts due to subsidiaries are unsecured, non-interest bearing with no fixed terms of repayment.

**14. GOODWILL AND OTHER INTANGIBLE ASSETS**

	Group		
	Goodwill HK\$ Million	Other intangible assets HK\$ Million	Total HK\$ Million
<b>Cost</b>			
At 1 April 2007/1 January 2008 and 31 December 2007/2008	297	12	309
<b>Accumulated amortisation</b>			
At 1 April 2007	–	3	3
Charge for the period	–	4	4
At 31 December 2007 and 1 January 2008	–	7	7
Charge for the year	–	5	5
At 31 December 2008	–	12	12
<b>Net carrying value</b>			
At 31 December 2008	297	–	297
At 31 December 2007	297	5	302

Goodwill is mainly related to the Group's terminals business. As at 31 December 2008, an impairment test was performed by comparing the attributable carrying amount of the business with the recoverable amount. The recoverable amount of the terminals business is based on fair value less costs to sell, which is determined by the latest transaction price. No impairment was recorded.

## 15. INTEREST IN ASSOCIATES

	Group	
	2008 HK\$ Million	2007 HK\$ Million
Share of net tangible assets	2,531	2,736
Goodwill	1,790	1,790
	<b>4,321</b>	4,526
Amounts due from associates	1,117	570
	<b>5,438</b>	5,096

- a)** Details of principal associates at 31 December 2008 are shown on page 125.
- b)** Included in interest in associates is a goodwill of HK\$1,790 million (2007: HK\$1,790 million) related to the acquisition of Mega Shekou Container Terminals Limited ("Mega SCT") which is held by Modern Terminals Limited ("Modern Terminals"), a 67.6%-owned subsidiary of the Group, under an agreement with China Merchants Holdings (International) Company Limited ("CMH") following the rationalisation of interests in Shekou Container Terminals Phases I, II and III ("the Rationalisation Agreement").

Under the Rationalisation Agreement, CMH and Modern Terminals initially held 70% and 30% equity interests in the Mega SCT respectively. CMH is responsible for financing and will bear the construction and development costs of the berths to be developed. Subject to satisfaction of the relevant conditions therein, the completion of the Rationalisation Agreement is to take place in four stages. In consideration of the construction and development of berths by CMH, the equity interests held by Modern Terminals in Mega SCT will gradually decrease from 30% upon stage 1 completion to 20% upon stage 4 completion. Stage 1 was completed on 22 February 2007 and Stage 2 was completed on 27 February 2008 resulting in Modern Terminals' equity interests in Mega SCT reducing from 30% to 27% as at 31 December 2008.

- c)** Amounts due from associates are unsecured, interest free with no fixed terms of repayment.

- d)** Certain entities classified as jointly controlled entities in the previous year have been reclassified as associates to reflect more appropriately the substance of the arrangements with the other shareholder in these entities. Accordingly, the comparative figure for interest in associates in the amount of HK\$1,464 million has been reclassified to conform to the current year's presentation.

**e) Summary financial information on associates**

	2008		2007	
	Total HK\$ Million	Attributable interest HK\$ Million	Total HK\$ Million	Attributable interest HK\$ Million
<b>Balance sheets</b>				
Assets	<b>21,622</b>	<b>4,539</b>	18,958	3,875

## 16. INTEREST IN JOINTLY CONTROLLED ENTITIES

	Group	
	2008 HK\$ Million	2007 HK\$ Million
Share of net assets	918	800
Goodwill	54	54
	972	854
Amounts due from jointly controlled entities	7,017	3,701
	7,989	4,555

- a) Details of principal jointly controlled entities at 31 December 2008 are shown on page 125.
- b) Amounts due from jointly controlled entities are unsecured, interest free and have no fixed terms of repayment. The amounts are not past due nor impaired.
- c) The Group's effective interest in the results, assets and liabilities of its jointly controlled entities are summarised below:

	Group	
	2008 HK\$ Million	2007 HK\$ Million
<b>Balance sheets</b>		
Non-current assets	1,298	1,343
Current assets	7,514	3,147
Non-current liabilities	(7,772)	(3,648)
Current liabilities	(122)	(42)
Net assets	918	800
<b>Profit and loss accounts</b>		
Revenue	180	160
Profit before taxation	11	32
Taxation	(6)	(5)
Profit for the year/period	5	27

## 17. AVAILABLE-FOR-SALE INVESTMENTS

	Group	
	2008 HK\$ Million	2007 HK\$ Million
Listed investments, at market value		
Listed in Hong Kong	55	1,659
Listed outside Hong Kong	2,175	5,899
	2,230	7,558
Unlisted investments	49	64
	2,279	7,622

- a)** Investments listed outside Hong Kong include the Group's 20% (2007: 20%) interest in Hotel Properties Limited ("HPL") and 17% (2007: 12%) interest in SC Global Developments Ltd ("SC Global"), which are incorporated and listed in Singapore. The equity interest in HPL is not classified as an associate as the Group does not have significant influence in HPL. The Group does not have representation on the board of directors and does not participate in the policy-making processes of HPL.
- b)** An impairment loss of HK\$1,375 million (2007: HK\$81 million) mainly related to WPSL's interest in HPL and SC Global was recognised in 2008 due to significant or prolonged decline in the fair value of the investments.

## 18. LONG TERM RECEIVABLES

Long term receivables represent receivables due after more than one year.

## 19. EMPLOYEE RETIREMENT BENEFITS

### **a) Defined benefit pension schemes**

The Group makes contributions to six defined benefit pension schemes that provide pension benefits for employees upon retirement. The assets of the schemes are held separately by independently administered funds. The schemes are funded by contributions both from employers and employees, which are in accordance with recommendations made by actuaries based on their valuation of the schemes. The latest valuations of the schemes as at 31 December 2008 were performed either by HSBC Life (International) Limited or Watson Wyatt Hong Kong Limited, who are independent qualified actuaries, using the projected unit credit method. The aggregate funding ratio of the schemes was 83%.

## Notes to the Financial Statements

- i) The defined benefit pension scheme (liabilities)/assets recognised in the consolidated balance sheet are as follows:

	<b>2008</b> HK\$ Million	2007 HK\$ Million
Fair value of scheme assets	<b>734</b>	1,130
Present value of funded obligations	<b>(888)</b>	(891)
Net defined benefit pension scheme (liabilities)/assets	<b>(154)</b>	239

A portion of the above liability is expected to be settled after more than one year. However, it is not practicable to segregate this amount from the amount payable in the next twelve months, as future contributions will also relate to future services rendered and future changes in actuarial assumptions and market conditions. The Group expects to pay HK\$3 million in contribution to defined benefit pension schemes in 2009.

- ii) Scheme assets consist of the following:

	<b>2008</b> HK\$ Million	2007 HK\$ Million
Equity securities	<b>490</b>	803
Debt securities	<b>209</b>	247
Deposits and cash	<b>35</b>	80
	<b>734</b>	1,130

- iii) Movements in the present value of the defined benefit obligations are as follows:

	<b>2008</b> HK\$ Million	2007 HK\$ Million
At 1 January/1 April	<b>891</b>	775
Benefits paid by the schemes	<b>(56)</b>	(65)
Current service cost	<b>34</b>	31
Employees' contribution	<b>2</b>	2
Interest cost	<b>30</b>	29
Actuarial (gains)/losses	<b>(13)</b>	119
At 31 December	<b>888</b>	891

## iv) Movements in the scheme assets are as follows:

	<b>2008</b>	2007
	<b>HK\$ Million</b>	HK\$ Million
At 1 January/1 April	<b>1,130</b>	1,005
Group's contributions paid to the schemes	<b>3</b>	3
Benefits paid by the schemes	<b>(56)</b>	(65)
Employees' contribution	<b>2</b>	2
Actuarial expected return on scheme assets	<b>80</b>	71
Actuarial (losses)/gains	<b>(425)</b>	114
At 31 December	<b>734</b>	1,130

## v) Income recognised in the consolidated profit and loss account is as follows:

	<b>Year ended</b>	Period ended
	<b>31/12/2008</b>	31/12/2007
	<b>HK\$ Million</b>	HK\$ Million
Current service cost	<b>34</b>	31
Interest cost	<b>30</b>	29
Actuarial expected return on scheme assets	<b>(80)</b>	(71)
	<b>(16)</b>	(11)

All the income is recognised within direct costs and operating expenses in the consolidated profit and loss account.

The actual return on scheme assets was a loss of HK\$345 million (2007: gain of HK\$185 million).

## vi) The principal actuarial assumptions used as at 31 December 2008 (expressed as a range) are as follows:

	<b>2008</b>	2007
Discount rate at 31 December	<b>1.2% – 1.65%</b>	3.45% – 3.5%
Expected rate of return on scheme assets	<b>7.0% – 8.0%</b>	7.0% – 8.0%
Future salary increases – 2008	<b>N/A</b>	3.0% – 4.5%
– 2009 thereafter	<b>0% – 4.0%</b>	3.0% – 4.5%

The expected long term rate of return on scheme assets is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The expected return is determined based on market expectation, at the beginning of the period, for returns net of administration costs, over the entire period of the defined benefit obligation.

vii) Historical information

	<b>2008</b> HK\$ Million	2007 HK\$ Million	2006 HK\$ Million
Fair value of scheme assets	<b>734</b>	1,130	1,005
Present value of the defined benefit obligations	<b>(888)</b>	(891)	(775)
(Deficit)/surplus in the scheme	<b>(154)</b>	239	230
Experience adjustments arising on:			
Scheme liabilities	<b>14%</b>	-6%	9%
Scheme assets	<b>-58%</b>	10%	2%

viii) The Group recognised an actuarial loss amounting to HK\$412 million (2007: HK\$5 million) for the year ended 31 December 2008 directly in equity. The cumulative amount of actuarial loss recognised amounted to HK\$265 million (2007: gain of HK\$147 million) as at 31 December 2008.

**b) Defined contribution pension schemes**

A number of defined contribution pension schemes (including the Mandatory Provident Fund) administered by independent trustees are available to the employees of the Group not covered by the defined benefit pension schemes. For defined contribution pension schemes, both the Group and the employees contribute respectively to the schemes sums which represent percentages of the employees' salaries as defined under the relevant trust deeds. The contributions by the Group are expensed as incurred and may be reduced by contributions forfeited for those employees who have left the scheme prior to full vesting of the related contributions.

**20. PROPERTIES FOR SALE**

	<b>Group</b>	
	<b>2008</b> HK\$ Million	2007 HK\$ Million
Properties under development for sale	<b>23,927</b>	18,814
Completed properties for sale	<b>733</b>	991
	<b>24,660</b>	19,805

- a) Properties under development for sale are expected to be substantially completed and recovered after more than one year.
- b) Included in properties under development for sale are deposits of HK\$5,233 million (2007: HK\$2,616 million) paid for the acquisition for certain land sites/properties located in the PRC.
- c) Properties under development for sale and completed properties for sale are stated at lower of cost and net realisable value. The total carrying value of properties stated at net realisable value at 31 December 2008 was HK\$251 million (2007 : HK\$249 million).
- d) Provision of HK\$146 million (2007: HK\$27 million) previously made for a China project was written back during the year under review.
- e) The carrying value of leasehold land (including land deposit) and freehold land included in properties under development for sale and held for sale is summarised as follows:

	<b>Group</b>	
	<b>2008</b> HK\$ Million	2007 HK\$ Million
Held in Hong Kong		
Long term leases	<b>1,596</b>	1,330
Medium term leases	<b>1,241</b>	1,332
	<b>2,837</b>	2,662
Held outside Hong Kong		
Freehold	<b>4,115</b>	6,584
Medium term leases	<b>13,340</b>	7,251
	<b>17,455</b>	13,835
	<b>20,292</b>	16,497

## 21. TRADE AND OTHER RECEIVABLES

### a) Ageing analysis

Included in this item are trade receivables (net of allowance for bad and doubtful debts) with an ageing analysis as at 31 December 2008 as follows:

	Group	
	2008 HK\$ Million	2007 HK\$ Million
Trade receivables		
Current	1,323	768
Past due:		
0 – 30 days	177	222
31 – 60 days	60	42
61 – 90 days	67	59
Over 90 days	–	1
	1,627	1,092
Other receivables	1,059	786
	2,686	1,878

Included in the 2008 current trade receivables are sales receivables of HK\$792 million (representing the 15% remaining balance of sales consideration to be billed according to the standard payment scheme in Singapore) accrued by WPSL on completion of The Sea View and The Cosmopolitan. Of the accrued sales receivables, HK\$422 million has been billed and collected by the end of February 2009. The balance of the sales receivable will be collected in 2009 and 2010.

The Group has established credit policies for each of its core businesses. The general credit terms allowed range from 0 to 60 days, except for sale of properties the proceeds from which are receivable pursuant to the terms of the agreements. All the receivables are expected to be virtually recoverable within one year.

### b) Impairment of trade receivables

Impairment losses in respect of trade receivables are recorded using an allowance account unless the Group is satisfied that recovery of the amount is remote, in which case the impairment loss is written off against trade receivables directly.

The movements in the allowance account for the bad and doubtful debts during the year, including both specific and collective loss components, are as follows:

	Group	
	2008 HK\$ Million	2007 HK\$ Million
At 1 January/1 April	53	50
Impairment loss recognised	84	26
Uncollectible amounts written off	(23)	(23)
At 31 December	114	53

**c) Trade receivables that are not impaired**

As at 31 December 2008, 94% (2007: 81%) of the Group's trade receivables were not impaired, of which 96% (2007: 89%) was either not past due or less than two months past due.

Based on past experience of the Group, it is determined that no impairment allowance is necessary in respect of these past due balances as there has not been a significant change in credit quality and the balances are still considered to be fully recoverable. The Group does not hold any collateral over these balances.

## 22. DERIVATIVE FINANCIAL INSTRUMENTS

	2008		2007	
	Assets HK\$ Million	Liabilities HK\$ Million	Assets HK\$ Million	Liabilities HK\$ Million
<b>Cash flow hedges</b>				
Forward foreign exchange contracts	–	–	45	–
<b>At fair value through profit or loss</b>				
Fixed-to-floating interest rate swaps	83	–	26	1
Floating-to-fixed interest rate swaps	–	126	–	–
Cross currency interest rate swaps	8	612	–	96
Forward foreign exchange contracts	4	206	–	130
Total	95	944	71	227
<b>Analysis</b>				
Current	12	206	54	131
Non-current	83	738	17	96
Total	95	944	71	227

## Notes to the Financial Statements

Analysis of the remaining maturities at 31 December 2008 of the above derivative financial instruments are as follows:

	2008		2007	
	Assets HK\$ Million	Liabilities HK\$ Million	Assets HK\$ Million	Liabilities HK\$ Million
<b>Fixed-to-floating interest rate swaps</b>				
Expiring within 1 year	8	–	9	1
Expiring after more than 1 year but not exceeding 5 years	37	–	11	–
Expiring after 5 years	38	–	6	–
	<b>83</b>	<b>–</b>	<b>26</b>	<b>1</b>
<b>Floating-to-fixed interest rate swaps</b>				
Expiring after 5 years	–	126	–	–
<b>Cross currency interest rate swaps</b>				
Expiring after more than 1 year but not exceeding 5 years	8	11	–	–
Expiring after 5 years	–	601	–	96
	<b>8</b>	<b>612</b>	<b>–</b>	<b>96</b>
<b>Forward foreign exchange contracts</b>				
Expiring within 1 year	4	206	45	130
Total	<b>95</b>	<b>944</b>	<b>71</b>	<b>227</b>

a) The notional principal amounts of derivative financial instruments outstanding at 31 December 2008 are as follows:

	2008 HK\$ Million	2007 HK\$ Million
Fixed-to-floating interest rate swaps	3,350	2,050
Floating-to-fixed interest rate swaps	2,500	–
Cross currency interest rate swaps	9,217	3,120
Forward foreign exchange contracts	1,619	2,938

The notional amount of cross currency interest rate swaps included the US\$400 million swaps against JPY with the effect of converting the US\$400 million ten-year fixed-rate notes issued in 2007 into JPY borrowings.

- b)** Derivative financial assets represented the amounts the Group would receive whilst derivative financial liabilities represented the amounts the Group would pay if the position were closed at the balance sheet date. Derivative financial instruments did not qualify for hedge accounting and their corresponding changes in fair values have been recognised in the consolidated profit and loss account.
- c)** There were no forward foreign exchange contracts that qualified as cash flow hedges (2007: HK\$1,136 million).

During the year, a loss of HK\$220 million (2007: HK\$224 million) in respect of forward foreign exchange contracts was recognised to the consolidated profit and loss account as follows:

	<b>Year ended 31/12/2008 HK\$ Million</b>	Period ended 31/12/2007 HK\$ Million
Loss on forward foreign exchange contracts not qualified for hedge accounting	<b>262</b>	224
Gain on forward foreign exchange contracts under cash flow hedge	<b>(42)</b>	–
	<b>220</b>	224

- d)** Fair value cost on cross currency interest rate swaps and interest rate swaps in the amounts of HK\$508 million (2007: HK\$96 million) and HK\$104 million (2007: Nil) respectively have been included under finance costs in the consolidated profit and loss account.

## 23. BANK DEPOSITS AND CASH

	<b>Group</b>		<b>Company</b>	
	<b>2008 HK\$ Million</b>	2007 HK\$ Million	<b>2008 HK\$ Million</b>	2007 HK\$ Million
Bank deposits and cash				
Not pledged	<b>22,242</b>	12,372	<b>311</b>	–
Pledged	<b>685</b>	707	–	–
	<b>22,927</b>	13,079	<b>311</b>	–

Bank deposits and cash as at 31 December 2008 included Renminbi balances in HK\$4,251 million equivalent (2007: HK\$2,694 million) placed with banks in China that the remittance of such are subject to relevant rules and regulations of foreign exchange control promulgated by the PRC government and Singapore dollar balances in HK\$1,543 million equivalent (2007: HK\$1,706 million) in respect of certain proceeds received from the pre-sale of properties in Singapore held under the "Project Account Rules – 1997 Ed", withdrawals from which are designated for payments for expenditure incurred on projects.

## 24. TRADE AND OTHER PAYABLES

Included in this item are trade payables with an ageing analysis as at 31 December 2008 as follows:

	<b>Group</b>	
	<b>2008</b>	2007
	<b>HK\$ Million</b>	HK\$ Million
Amounts payable in the next:		
0 – 30 days	<b>339</b>	439
31 – 60 days	<b>180</b>	132
61 – 90 days	<b>127</b>	110
Over 90 days	<b>393</b>	250
Rental and customer deposits	<b>1,039</b>	931
Other payables	<b>1,761</b>	1,591
	<b>3,803</b>	3,516
	<b>6,603</b>	6,038

The amount of trade and other payables that is expected to be settled after more than one year is HK\$1,207 million (2007: HK\$1,068 million), which is mainly for rental and customer deposits. The Group considers the effect of discounting these would be immaterial. All of the other trade and other payables are expected to be settled within one year or payable on demand.

## 25. BANK LOANS AND OTHER BORROWINGS

	2008 HK\$ Million	2007 HK\$ Million
<b>Group</b>		
<b>Bonds and notes (Unsecured)</b>		
HK dollar fixed rate notes due 2008	–	1,209
HK dollar fixed rate notes due 2009	308	304
HK dollar fixed rate notes due 2011	214	206
HK dollar fixed rate notes due 2016	289	256
HK dollar floating rate notes due 2008	–	100
HK dollar floating rate notes due 2009	100	101
HK dollar floating rate notes due 2010	200	200
HK dollar floating rate notes due 2013	300	300
US dollar fixed rate notes due 2017	3,120	3,120
	<b>4,531</b>	5,796
<b>Bank loans (Secured)</b>		
Due within 1 year	536	619
Due after 1 year but within 2 years	2,294	167
Due after 2 years but within 5 years	9,328	3,560
Due after 5 years	3,104	1,949
	<b>15,262</b>	6,295
<b>Bank loans (Unsecured)</b>		
Due within 1 year	4,011	5,192
Due after 1 year but within 2 years	6,942	3,908
Due after 2 years but within 5 years	14,077	13,000
Due after 5 years	800	800
	<b>25,830</b>	22,900
Total bank loans and other borrowings	<b>45,623</b>	34,991
<b>Analysis of maturities of the above borrowings</b>		
<b>Current borrowings</b>		
Due within 1 year	4,955	7,120
<b>Non-current borrowings</b>		
Due after 1 year but within 5 years	33,355	21,446
Due after 5 years	7,313	6,425
	<b>40,668</b>	27,871
Total bank loans and other borrowings	<b>45,623</b>	34,991

## Notes to the Financial Statements

	2008 HK\$ Million	2007 HK\$ Million
<b>Company</b>		
<b>Bank loans (Secured)</b>		
Due after 2 years but within 5 years	5,500	–

- a) The Group's borrowings are considered by the management to be effectively denominated in the following currencies (after the effects of cross currency interest rate swaps arrangements as detailed in Note 29(b)):

	Group	
	2008 HK\$ Million	2007 HK\$ Million
HKD	36,295	26,597
RMB	3,743	2,295
USD	351	250
JPY	3,120	3,120
SGD	2,114	2,729
	<b>45,623</b>	34,991

- b) The interest rate profile of the Group's and the Company's borrowings (after the effects of interest rate swaps and cross currency interest rate swaps as detailed in Notes 29(a) and 29(b) respectively) are as follows:

	2008		2007	
	Effective interest rate %	HK\$ Million	Effective interest rate %	HK\$ Million
<b>Group</b>				
<b>Fixed rate borrowings</b>				
Bonds and notes	3.1	3,120	3.1	3,120
<b>Floating rate borrowings</b>				
Bonds and notes	2.5	1,411	4.4	2,676
Bank loans	2.4	41,092	3.9	29,195
		<b>42,503</b>		31,871
Total borrowings		<b>45,623</b>		34,991
<b>Company</b>				
<b>Floating rate borrowings</b>				
Bank loans	0.9	5,500	–	–

- c) Included in the Group's total loans are bank loans borrowed by Wharf and WPSL of HK\$38,009 million and HK\$2,114 million (2007: HK\$31,282 million and HK\$2,729 million), respectively, which are without recourse to the Company and its wholly-owned subsidiaries.
- d) All the interest bearing borrowings are carried at amortised cost except for loans in an amount of HK\$911 million (2007: HK\$2,076 million) which are carried at their fair value. None of the non-current interest bearing borrowings are expected to be settled within one year.
- e) At 31 December 2008, certain banking facilities of the Group are secured by mortgages over properties under development, certain fixed assets, certain available-for-sale investments and certain bank deposits with an aggregate carrying value of HK\$41,063 million (2007: HK\$16,419 million).
- f) Certain of the above borrowings are attached with financial covenants which require that at any time, the consolidated tangible net worth is not less than and the ratio of borrowings to consolidated tangible net worth is not more than certain required levels of the relevant groups. During the year under review, all these covenants have been complied with by the Group.

## 26. DEPOSITS FROM SALE OF PROPERTIES

Deposits from sale of properties in the amount of HK\$2,180 million (2007: HK\$1,702 million) are expected to be recognised as income in the consolidated profit and loss account after more than one year.

## 27. DEFERRED TAXATION

- a) Net deferred tax (assets)/liabilities recognised in the consolidated balance sheet:

	Group	
	2008 HK\$ Million	2007 HK\$ Million
Deferred tax liabilities	16,258	16,578
Deferred tax assets	(484)	(360)
Net deferred tax liabilities	15,774	16,218

## Notes to the Financial Statements

The components of deferred tax (assets)/liabilities and the movements during the year/period are as follows:

	Revaluation of investment properties HK\$ Million	Revaluation of investments HK\$ Million	Depreciation allowances in excess of the related depreciation HK\$ Million	Others HK\$ Million	Future benefit of tax losses HK\$ Million	Total HK\$ Million
At 1 April 2007	12,050	280	2,190	(21)	(778)	13,721
Exchange differences	1	14	1	–	–	16
Charged to the profit and loss account	2,535	–	115	3	107	2,760
Credited to reserves	–	(78)	–	–	–	(78)
Effect of change in tax rate	(149)	–	(52)	–	–	(201)
At 31 December 2007 and 1 January 2008	<b>14,437</b>	<b>216</b>	<b>2,254</b>	<b>(18)</b>	<b>(671)</b>	<b>16,218</b>
Exchange differences	<b>83</b>	<b>(2)</b>	<b>12</b>	<b>1</b>	<b>3</b>	<b>97</b>
Charged/(credited) to the profit and loss account	<b>495</b>	<b>–</b>	<b>112</b>	<b>(25)</b>	<b>(97)</b>	<b>485</b>
Credited to reserves	<b>–</b>	<b>(214)</b>	<b>–</b>	<b>–</b>	<b>–</b>	<b>(214)</b>
Effect of change in tax rate	<b>(739)</b>	<b>–</b>	<b>(112)</b>	<b>–</b>	<b>39</b>	<b>(812)</b>
At 31 December 2008	<b>14,276</b>	<b>–</b>	<b>2,266</b>	<b>(42)</b>	<b>(726)</b>	<b>15,774</b>

### b) Deferred tax assets not recognised

Deferred tax assets have not been recognised in respect of the following items:

	Group 2008 HK\$ Million	2007 HK\$ Million
Deductible temporary differences	<b>(13)</b>	(3)
Future benefit of tax losses	<b>(1,151)</b>	(1,088)
Net deferred tax assets not recognised	<b>(1,164)</b>	(1,091)

The Group has not recognised the deferred tax assets attributable to the future benefit of tax losses sustained in the operations of certain subsidiaries as the availability of future taxable profits against which the assets can be utilised is uncertain at 31 December 2008. The tax losses arising from Hong Kong operations do not expire under current tax legislation. The tax losses arising from China operations expire five years after the relevant accounting year end date.

## 28. OTHER DEFERRED LIABILITIES

	Group	
	2008 HK\$ Million	2007 HK\$ Million
Club debentures issued (non-interest bearing)	217	219
Deferred revenue	45	42
	<b>262</b>	<b>261</b>

The Group considers the effect of discounting the club debentures would be immaterial to the Group.

## 29. FINANCIAL RISK MANAGEMENT

The Group is exposed to financial risks related to interest rate, foreign currency, equity price, liquidity and credit in the normal course of business. To manage some of these risks, the Group Finance Committee develops, maintains and monitors the Group's financial policies designed to facilitate cost efficient funding to the Group and to mitigate the impact of fluctuations in interest rates and exchange rates. The financial policies are implemented by the Group's Treasury department, which operates as a centralised service unit in close co-operation with the Group's operating units for managing the day-to-day treasury functions and financial risks and for providing cost efficient funding to the Group.

The Group cautiously uses derivatives, principally forward foreign exchange contracts and interest rate and cross currency interest rate swaps as deemed appropriate for financing and hedging transactions and for managing the Group's assets and liabilities. It is the Group's policy not to enter into derivative transactions and invest in financial products with significant underlying leverage which are commercially speculative.

### a) Interest rate risk

The Group's main exposure to interest rate risk relates principally to the Group's long term borrowings denominated in Hong Kong dollar ("HKD"), United States dollar ("USD"), Renminbi ("RMB") and Singapore dollar ("SGD") borrowings while the Company's main exposure to interest rate risk relates principally to the Company's long term borrowings denominated in HKD. Borrowings at variable rates expose the Group and the Company to cash flow interest rate risk whilst borrowings at fixed rate expose the Group to fair value interest rate risk. The Group manages its interest rate risk exposure in accordance with defined policies and regular review with a focus on reducing the Group's overall cost of funding as well as having regard to the floating/fixed rate mix appropriate to its current business portfolio.

In line with the Group's prevailing strategy, the Group has entered into a number of interest rate swaps ("IRS") which have the economic effect of converting certain fixed rate interest bearing notes with the notional amounts totalling HK\$850 million (2007: HK\$2,050 million) into floating rate borrowings. For each of the IRS entered into by the Group, the tenor and timing of the IRS cash flows matches with those of the notes interest expenses.

For ensuring the certainty for a proportion of funding costs in the forthcoming years, the Group has entered into various floating-to-fixed IRS with the notional amounts totalling HK\$2,500 million with maturity of 10 years together with another HK\$2,500 million fixed-to-floating IRS with maturity of 2 years. Effectively, this arrangement has locked in the fixed interest rates ranging from 2.1% to 2.7% for certain portion of its floating rate loan portfolio for a period of eight years from 2010 onwards.

As at 31 December 2008, after taking into account of IRS, approximately 93% (2007: 91%) of the Group's borrowings were at floating rates and the remaining 7% (2007: 9%) were at fixed rates. (see Note 25(b)).

Based on the sensitivity analysis performed on 31 December 2008, it was estimated that a general increase/decrease of 1% (2007:1%) in interest rates would decrease/increase the post-tax profit and total equity of the Group and the Company by approximately HK\$122 million (2007: HK\$136 million) and HK\$51 million (2007: Nil) respectively. This takes into account the effect of interest bearing bank deposits.

The sensitivity analysis is determined assuming all other variables, including the amount of borrowings and bank deposits, are held constant for the whole year and the change in interest rates are compared to the rates applicable at the balance sheet date and are applied to both derivative and non-derivative financial instruments in existence at that date. The analysis is performed on the same basis for 2007.

### **b) Foreign currency risk**

The Group owns assets and conducts its businesses primarily in Hong Kong and secondarily in China and Singapore, with its cash flows denominated substantially in HKD, RMB and SGD which exposes the Group to foreign currency risk with respect to RMB and SGD related to its property development and port-related operations and investments in China and WPSL's property development projects in Singapore, respectively.

The Group is also exposed to foreign currency risk in respect of its USD denominated borrowings. Anticipated foreign exchange payments relate primarily to interest expense payments, repayment of principal and capital expenditure. Where appropriate or available in a cost-efficient manner, the Group may enter into forward foreign exchange and swap contracts to manage its foreign currency risk arising from above anticipated transactions denominated in currencies other than its entities functional currencies.

The Group's borrowings are predominantly denominated in the functional currency of the entity taking out the borrowings. In the case of group companies whose functional currencies are in HKD, their borrowings will be either in HKD or USD. For managing the overall financing costs of existing and future capital requirements for the projects in China, the Group has adopted a diversified funding approach and entered into certain cross currency interest rate swaps and forward foreign exchange contracts. Some of the cross currency interest rate swaps have the financial effect of converting certain USD borrowings into JPY borrowings, taking the advantage of lower interest rate for the JPY borrowings but exposing the Group to exchange rate risk with respect to JPY. The swaps entered into under this arrangement have effectively converted the USD400 million ten-year fixed-rate notes issued in 2007 into JPY borrowings, which has and is anticipated going forward to save the Group interest of approximately 3% per annum for and over the tenure of the notes. Concurrently, the swaps expose the Group to fluctuation in the JPY exchange rate. Based on the prevailing accounting standard, such swaps need to be marked to market with the valuation movement recognised to profit and loss account.

The following table details the Group's exposure at the balance sheet date to currency risk arising from recognised assets/(liabilities) denominated in a currency other than the functional currency of the Group's entities to which they relate. Differences resulting from the translation of the financial statements of foreign operations into the Group's presentation currency and exposure arising from inter-company balances which are considered to be in the nature of investment in a subsidiary are excluded.

	2008				2007			
	USD Million	RMB Million	JPY Million	EURO Million	USD Million	RMB Million	JPY Million	AUD Million
Bank deposits and cash	53	87	-	-	87	48	-	-
Available-for-sale investments	179	-	-	2	-	-	-	-
Trade and other receivables	27	38	-	2	-	-	-	-
Trade and other payables	(26)	(388)	-	-	(21)	(277)	-	-
Bank loans and other borrowings	(1,182)	-	-	-	(400)	-	-	-
Inter-company balances	104	906	-	-	-	5	-	-
Gross exposure arising from recognised assets and liabilities	(845)	643	-	4	(334)	(224)	-	-
Notional amount of forward foreign exchange contracts:								
At fair value through profit or loss	194	-	(19,800)	-	76	-	(19,800)	51
Cash flow hedge	-	-	-	-	-	1,088	-	-
Notional amount of cross currency IRS	1,182	-	(45,764)	-	400	-	(45,764)	-
Highly probably forecast purchase	(78)	-	-	(2)	-	-	-	-
Overall net exposure	453	643	(65,564)	2	142	864	(65,564)	51

In addition, the PRC subsidiaries of the Group with RMB as their functional currency are exposed to foreign currency risk with respect to HKD/USD by holding HKD/USD denominated bank deposits and cash, bank loans and inter-company borrowings in the amount of HK\$654 million, HK\$1,408 million and HK\$1,249 million, respectively, as at 31 December 2008 (2007: HK\$985 million, HK\$1,325 million and HK\$1,795 million respectively).

Based on the sensitivity analysis performed on 31 December 2008, it is estimated that the approximate changes in the Group's post-tax profit and total equity in response to reasonably possible changes in the foreign exchange rates to which the Group has significant exposure at the balance sheet date are as follows:

- a 5% (2007: 5%) increase/decrease in the exchange rate of JPY against USD will decrease/increase the Group's post-tax profit and total equity by approximately HK\$277 million (2007: HK\$234 million).
- the impact on the Group's post-tax profit and total equity is not expected to be material in response to possible changes in the foreign exchange rates of other currencies to which the Group is exposed.

The sensitivity analysis includes balances between group companies where the denomination is in a currency other than the functional currencies of the Group's entities to which they relate.

The above sensitivity analyses has been determined assuming that the change in foreign exchange rates are compared to the rates applicable at the balance sheet date and are applied to each of the Group's entities' exposure to currency risk for both derivative and non-derivative financial instruments in existence at that date, and that all other variables, in particular interest rates, remain constant.

In this respect, it is assumed that the pegged rate between the HKD and the USD would be materially unaffected by any changes in movement in value of the USD against other currencies. Results of the analysis as presented above represent an aggregation of the effects on each of the Group entities' profit after tax and equity measured in the respective functional currencies, translated into HKD at exchange rate ruling at the balance sheet date for presentation purposes. The analysis is performed on the same basis for 2007.

**c) Equity price risk**

The Group is exposed to equity price changes arising from equity investments classified as available-for-sale investments.

Listed investments held in the available-for-sale portfolio have been chosen taking reference to their long term growth potential and returns and are monitored regularly for performance. Given that the volatility of the stock markets may not have a direct correlation with the Group's investment portfolio, it is impractical to determine the impact that the changes in stock market indices would have on the Group's portfolio of equity investments.

Based on the sensitivity analysis performed on 31 December 2008, it is estimated that an increase/decrease of 10% (2007: 10%) in the market value of the Group's listed available-for-sale investments, with all other variables held constant, would not affect the Group's post-tax profit unless there are impairments but would increase/decrease the Group's total equity by HK\$222 million (2007: HK\$717 million). Since WPSL's investments in HPL and SC Global were considered to be impaired as at 31 December 2008, further decrease in market value of the investments may be required to be charged to the profit and loss account, subject to impairment tests at the respective reporting balance sheet dates. The analysis is performed on the same basis for 2007.

**d) Liquidity risk**

The Group adopts a prudent liquidity risk management policy, maintaining sufficient reserves of cash and readily realisable marketable securities and adequate committed lines of funding with staggered maturities to reduce refinancing risk in any year from major financial institutions and to maintain flexibility for meeting its liquidity requirements in the short and longer term. The Group's cash management is substantially centralised within the Group Treasury department, which regularly monitors the current and expected liquidity requirements and its compliance with lending covenants.

Certain non-wholly-owned subsidiaries are responsible for their own cash management, including the short term investment of cash surpluses with creditworthy financial institutions and the raising of loans to cover expected cash demands, in accordance with the established policies and strategies with the concurrence by the Company.

## Notes to the Financial Statements

The following tables detail the remaining contractual maturities at the balance sheet date of the Group's derivative and non-derivative financial liabilities, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on rates at the balance sheet date) and the earliest date the Group can be required to pay:

	Contractual undiscounted cash flow

**e) Credit risk**

The Group's credit risk is primarily attributable to rental, trade and other receivables, cash and cash equivalents and over-the-counter derivative financial instruments. The exposures to these credit risks are closely monitored on an ongoing basis by established credit policies and procedures in each of the Group's core businesses. In respect of rental receivables, sufficient rental deposits from tenants are held to cover potential exposure to credit risk. Further, evaluations are made for the customers with reference to their repayment history and financial strength, as well as the economic environment in which the customer operates.

Cash at bank, deposits placed with financial institutions, and investments and transactions involving derivative financial instruments are with counter parties with sound credit ratings to minimise credit exposure.

The Group has no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the consolidated balance sheet. Except for the financial guarantees given by the Company as set out in Note 32, the Group does not provide any other guarantee which would expose the Group or the Company to material credit risk.

**f) Fair value estimation**

Listed investments are stated at quoted market prices. Unlisted investments for which fair values cannot be reliably measured are stated at cost less impairment losses.

The fair values of receivables, bank balances and other current assets, payables and accruals, current borrowings, and provisions are assumed to approximate their carrying amounts due to the short term maturities of these assets and liabilities.

The fair value of forward foreign exchange contracts is determined by using the forward exchange rates at the balance sheet date and comparing to the contractual rates. The fair value of interest rate swaps and cross currency interest rate swaps is determined based on the amount that the Group would receive or pay to terminate the swaps, at the balance sheet date taking into account current interest rates and current creditworthiness of the swap counter parties. The fair value of bank loans and other borrowings is estimated as the present value of future cash flows, discounted at current market interest rates for similar financial institutions.

All financial instruments are carried at amounts not materially different from their fair values as at 31 December 2008 and 31 December 2007. Amounts due (to)/from subsidiaries are unsecured, interest free and have no fixed repayment terms. Given these terms it is not meaningful to disclose fair values.

**g) Capital management**

The Group's primary objective when managing capital is to safeguard the Group's ability to continue as a going concern, to meet its financial obligations and continue to provide returns for shareholders and benefits for other stakeholders, by pricing products and services commensurately with the level of risk and by securing access to finance at a reasonable cost.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholders returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in the light of changes in the Group's business portfolio and economic conditions.

The Group monitors its capital structure by reviewing its net debt-to-equity ratios and cash flow requirements, taking into account of its future financial obligations and commitments. For this purpose, the Group defines net debt as total loans less deposits and cash. Shareholders' equity comprises issued share capital and reserves attributable to equity shareholders of the Company. Total equity comprises shareholders' equity and minority interests.

The net debt-to-equity ratios as at 31 December 2008 are as follows:

	<b>Group</b>	
	<b>2008</b>	2007
	<b>HK\$ Million</b>	HK\$ Million
Total bank loans and other borrowings (Note 25)	<b>45,623</b>	34,991

- a)** Reserves of the Company available for distribution to equity shareholders at 31 December 2008 amounted to HK\$1,471 million (2007: HK\$1,468 million). The application of the share premium account and the capital redemption reserve account are governed by section 48B and section 49H of the Hong Kong Companies Ordinance respectively. The investment revaluation reserves have been set up and will be dealt with in accordance with the accounting policies adopted for the revaluation of available-for-sale investments. The exchange and other reserves mainly comprise exchange differences arising from the translation of the financial statements of foreign operations.
- b)** Included in exchange and other reserves is capital redemption reserve of HK\$19 million (2007: HK\$19 million).

### 32. CONTINGENT LIABILITIES

- a)** At 31 December 2008, there were contingent liabilities in respect of guarantees given by the Company on behalf of subsidiaries relating to banking facilities up to HK\$1,670 million (2007: HK\$3,670 million).
- b)** The Company has not recognised any deferred income for the guarantees given in respect of borrowings and other banking facilities for subsidiaries as their fair value cannot be reliably measured and their transaction price was HK\$Nil.

### 33. COMMITMENTS

The Group's outstanding commitments on expenditures as at 31 December 2008 included belows:

	<b>166</b>	<b>-</b>	<b>-</b>	<b>166</b>	<b>196</b>	<b>-</b>	<b>-</b>	<b>196</b>

- i)** Commitments for properties under development by the Group's subsidiaries or through jointly controlled entities included outstanding land cost attributable to the Group of HK\$11,560 million payable by instalments in 2009 and 2010. Other commitments under the categories are mainly construction cost for the forthcoming years.
- ii)** Commitment for capital expenditure in China are mainly related to Modern Terminals' port expenditure for the Da Chan Bay and Taicang projects.
- iii)** The Group leases a number of properties and telecommunication network facilities under operating leases. The leases typically run for an initial period of two to fifteen years, with an option to renew the lease when all terms are renegotiated. Lease payments are usually increased annually to reflect market rentals. None of the leases includes contingent rentals.
- iv)** The above commitments, apart from HK\$3.4 billion in respect of properties under development undertaken by WPL group or through its associates, are substantially attributable to Wharf group.

#### **34. MATERIAL RELATED PARTY TRANSACTIONS**

Except for the transactions noted below, the Group has not been a party to any material related party transactions during the year ended 31 December 2008:

- a)** In respect of the year ended 31 December 2008, the Group earned rental income totalling HK\$495 million (2007: HK\$408 million) from various tenants which are wholly-owned by, or are non-wholly-owned subsidiaries of, companies which in turn are wholly-owned by the family interests of, or by a trust the settlor of which is, the Chairman of the Company. Such transactions are considered to be related party transactions and also constitute connected transactions as defined under the Listing Rules.
- b)** Remuneration for key management personnel of the Group, including amounts paid to the Directors of the Company and the five highest paid employees are disclosed in notes 3(b) and 3(c).

### **35. CHANGES IN ACCOUNTING POLICIES**

The Hong Kong Institute of Certified Public Accountants (“HKICPA”) has issued the following interpretations and an amendment to Hong Kong Financial Reporting Standards (“HKFRSs”) that are first effective for the current accounting period of the Group and the Company:

HK(IFRIC)-12, Service concession arrangements

HK(IFRIC)-14, HKAS 19 – The limit on a defined benefit asset, minimum funding requirements and their interaction

Amendments to HKAS 39, Financial instruments: Recognition and measurement, and HKFRS 7, Financial instruments: Disclosures – Reclassification of financial assets

The “Principal accounting policies” set out on pages 102 to 120 summarises the accounting policies of the Group and the Company after the adoption of these policies to the extent that they are relevant to the Group and the Company.

The adoption of the new and revised HKFRSs has no material impact to the financial statements of the Group for the nine months ended 31 December 2007 and the year ended 31 December 2008.

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period (see Note 36).

### 36. FUTURE CHANGES IN ACCOUNTING POLICIES

Up to the date of issue of these financial statements, the HKICPA has issued a number of amendments, new standards and interpretations, which have not been adopted since they are only effective after 31 December 2008.

The Group is in the process of making an assessment of what the impact of these amendments, new standards and new interpretations is expected to be in the period of initial application. So far it has concluded that apart from Improvements to HKFRSs which may have some impact, the adoption of the other new standards and interpretations is unlikely to have a significant impact on the Group's results of operations and financial position.

In addition, the following developments may result in new or amended disclosures in the financial statements including possible restatement comparative amounts in the first period of adoption:

	<b>Effective for accounting periods beginning on or after</b>
HK(IFRIC) - Int 13, Customer loyalty programmes	1 July 2008
HKAS 1 (Revised), Presentation of financial statements	1 January 2009
HKAS 23 (Revised), Borrowing costs	1 January 2009
HKFRS 8, Operating segments	1 January 2009
HKAS 27 (Revised), Consolidated and separate financial statements	1 July 2009

### 37. COMPARATIVE FIGURES

Certain comparative figures including interest in associates, interest in jointly controlled entities, segment information, direct costs and operating expenses and net other (charge)/credit for the previous period have been reclassified to conform to the presentation in the 2008 financial statements.

### 38. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved and authorised for issue by the Board of Directors on 25 March 2009.

# Principal Accounting Policies

---

## **a) Statement of compliance**

These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“HKFRSs”) which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), accounting principles generally accepted in Hong Kong and the requirements of the Hong Kong Companies Ordinance. These financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. A summary of the principal accounting policies adopted by the Group is set out below.

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Group and the Company. Note 35 to the Financial Statements provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these financial statements. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period (note 36).

## **b) Basis of preparation of the financial statements**

The consolidated financial statements made up to 31 December comprise the Company and its subsidiaries (together referred to as the “Group”) and the Group’s interest in associates and jointly controlled entities.

The measurement basis used in the preparation of the financial statements is the historical cost basis except where stated otherwise in the accounting policies set out below.

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in note (z).

**c) Basis of consolidation**

**(i) Subsidiaries and minority interests**

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity, or has the ability in practice to exert de facto control over an entity, so as to obtain benefits from its activities. In assessing control, potential voting rights that are presently exercisable are taken into account.

De facto control exists when the Company is able to exert effective control by holding a substantial minority interest in an entity of which the other shareholdings are widely dispersed and thus unable to coalesce to successfully vote against the wishes of the largest shareholder.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances and transactions, and any unrealised profits arising from intra-group transactions, are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Minority interests represent the portion of the net assets of subsidiaries attributable to interests that are not owned by the Company, whether directly or indirectly through subsidiaries, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. Minority interests are presented in the consolidated balance sheet within equity, separately from equity attributable to the equity shareholders of the Company. Minority interests in the results of the Group are presented on the face of the consolidated profit and loss account as an allocation of the total profit or loss for the year between minority interests and the equity shareholders of the Company.

Where losses applicable to the minority exceed the minority's interest in the equity of a subsidiary, the excess, and any further losses applicable to the minority, are charged against the Group's interest except to the extent that the minority has a binding obligation to, and is able to, make additional investment to cover the losses. If the subsidiary subsequently reports profits, the Group's interest is allocated all such profits until the minority's share of losses previously absorbed by the Group has been recovered.

In the Company's balance sheet, an investment in a subsidiary is stated at cost less impairment losses.

### (ii) Associates and jointly controlled entities

An associate is an entity in which the Group or the Company has significant influence, but not control or joint control, over its management, including participation in the financial and operating policy decisions.

A jointly controlled entity is an entity which operates under a contractual arrangement between the Group or Company and other parties, where the contractual arrangement establishes that the Group or Company and one or more of the other parties share joint control over the economic activity of the entity.

An investment in an associate or a jointly controlled entity is accounted for in the consolidated financial statements under the equity method and is initially recorded at cost and adjusted thereafter for the post acquisition change in the Group's share of the associate's or the jointly controlled entity's net assets. The consolidated profit and loss account includes the Group's share of the post-acquisition, post-tax results of the associates and jointly controlled entities for the year, including any impairment loss on goodwill relating to the investment in associates and jointly controlled entities recognised for the year.

When the Group's share of losses exceeds its interest in the associate or the jointly controlled entity, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or the jointly controlled entity. For this purpose, the Group's interest in the associate or the jointly controlled entity is the carrying amount of the investment under the equity method together with the Group's long term interests that, in substance, form part of the Group's net investment in the associate or the jointly controlled entity.

Unrealised profits and losses resulting from transactions between the Group and its associates and jointly controlled entities are eliminated to the extent of the Group's interest in the associate or jointly controlled entity, except where unrealised losses provide evidence of an impairment of the asset transferred, in which case they are recognised immediately in the consolidated profit and loss account.

In the individual company balance sheets, its investment in associates and jointly controlled entities are stated at cost less impairment losses.

### (iii) Goodwill

Goodwill represents the excess of the cost of a business combination or an investment in an associate or a jointly controlled entity over the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities.

Goodwill is stated at cost less accumulated impairment losses. Goodwill is allocated to cash-generating units and is tested annually for impairment. In respect of associates or jointly controlled entities, the carrying amount of goodwill is included in the carrying amount of the interest in the associate or jointly controlled entity.

Any excess of the Group's interest in the fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the cost of a business combination or an investment in an associate or a jointly controlled entity is recognised immediately in the consolidated profit and loss account.

On disposal of a cash-generating unit, an associate or a jointly controlled entity during the year, any attributable amount of purchased goodwill is included in the calculation of the profit or loss on disposal.

**d) Fixed assets**

**(i) Investment properties**

Investment properties are land and/or buildings which are owned or held under a leasehold interest to earn rental income and/or for capital appreciation. These include land held for a currently undetermined future use.

Investment properties are stated in the balance sheet at fair value. Any gain or loss arising from a change in fair value or from the retirement or disposal of an investment property is recognised in the consolidated profit and loss account. Rental income from investment properties is accounted for as described in note (s)(i).

When the Group holds a property interest under an operating lease to earn rental income and/or for capital appreciation, the interest is classified and accounted for as an investment property on a property-by-property basis. Any such property interest which has been classified as an investment property is accounted for as if it were held under a finance lease, and the same accounting policies are applied to that interest as are applied to other investment properties leased under finance leases. Lease payments are accounted for as described in note (i).

Property that is being constructed or developed for future use as investment property is classified as other property, plant and equipment and stated at cost until construction or development is complete, at which time it is reclassified as investment property at fair value. Any difference between the fair value of the property at that date and its previous carrying amount is recognised in the consolidated profit and loss account.

**(ii) Hotel and club properties**

Hotel and club properties are stated at cost less accumulated depreciation and impairment losses.

**(iii) Broadcasting and communications equipment**

Broadcasting and communications equipment is stated at cost less accumulated depreciation and impairment losses. Cost includes materials, direct labour and an appropriate proportion of overheads and borrowing costs directly attributable to the acquisition, construction or production of such equipment which necessarily takes a substantial period of time to get ready for its intended use.

**(iv) Other properties and fixed assets held for own use**

Other properties and fixed assets held for own use are stated at cost less accumulated depreciation and impairment losses.

- (v)** Gains or losses arising from the retirement or disposal of a fixed asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the consolidated profit and loss account on the date of retirement or disposal.

**e) Depreciation of fixed assets**

Depreciation is calculated to write-off the cost of items of fixed assets, less their estimated residual value, if any, using a straight line method over their estimated useful lives as follows:

**(i) Investment properties**

No depreciation is provided on investment properties.

**(ii) Hotel and club properties**

Depreciation is provided on the cost of the leasehold land of hotel and club properties over the unexpired period of the lease. Costs of buildings thereon are depreciated on a straight line basis over their estimated useful lives of not more than 40 years.

**(iii) Broadcasting and communications equipment**

Depreciation is provided on a straight line basis on the cost of the equipment at rates determined by the estimated useful lives of the assets of 2 to 20 years.

**(iv) Other properties and fixed assets held for own use**

Depreciation is provided on the cost of the leasehold land of all other properties held for own use over the unexpired period of the lease. Costs of the buildings thereon are depreciated on a straight line basis over their estimated useful lives of 40 years.

Depreciation is provided on a straight line basis on the cost of other fixed assets held for own use at rates determined by the estimated useful lives of these assets of 3 to 25 years.

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

**f) Investments in debt and equity securities**

Investments in debt and equity securities (other than investments in subsidiaries, associates and jointly controlled entities) are initially stated at cost, which is their transaction price unless fair value can be more reliably estimated using valuation techniques whose variables include only data from observable markets. Cost includes attributable transaction costs, except where indicated otherwise below. These investments are subsequently accounted for as follows, depending on their classification:

- (i) Investments in securities held for trading are classified as current assets. Any attributable transaction costs are recognised in the consolidated profit or loss account as incurred. At each balance sheet date the fair value is remeasured, with any resultant gain or loss being recognised in the consolidated profit and loss account. The net gain or loss recognised in the consolidated profit and loss account does not include any dividends or interest earned on these investments as these are recognised in accordance with the policy set out in notes (s)(iv) and (s)(v).
- (ii) Dated debt securities that the Group and/or the Company has the positive ability and intention to hold to maturity are classified as held-to-maturity securities. Held-to-maturity securities are stated in the balance sheet at amortised cost less impairment losses.
- (iii) Investments in equity securities that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are recognised in the balance sheet at cost less impairment losses.
- (iv) Investments in securities which do not fall into any of the above categories are classified as available-for-sale securities. At each balance sheet date the fair value is remeasured, with any resultant gain or loss being recognised directly in the investments revaluation reserves in equity, except foreign exchange gains and losses resulting from changes in the amortised cost of monetary items such as debt securities which are recognised directly in the consolidated profit and loss account. Where these investments are interest-bearing, interest calculated using the effective interest method is recognised in the consolidated profit and loss account. When these investments are derecognised or impaired, the cumulative gain or loss previously recognised directly in the investments revaluation reserves in equity is recognised in the consolidated profit and loss account.
- (v) Investments are recognised/derecognised on the date the Group commits to purchase/sell the investments or they expire.

**g) Derivative financial instruments**

Derivative financial instruments are recognised initially at fair value. Subsequent to initial recognition, the fair value is remeasured. The gain or loss on remeasurement to fair value is recognised immediately in the consolidated profit and loss account. However, where derivatives qualify for hedge accounting, recognition of any resultant gain or loss depends on the nature of the item being hedged.

**h) Hedging**

**(i) Fair value hedge**

A fair value hedge is a hedge of the exposure to changes in fair value of a recognised asset or liability or an unrecognised firm commitment, or an identified portion of such an asset, liability or firm commitment, that is attributable to a particular risk and could affect the consolidated profit and loss account. The gain or loss from remeasuring the hedging instrument at fair value together with the gain or loss on the hedged item attributable to the hedged risk are recorded in the consolidated profit and loss account.

**(ii) Cash flow hedge**

Where a derivative financial instrument is designated as a hedge of the variability in cash flows of a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk of a committed future transaction, the effective portion of any gain or loss on remeasurement of the derivative financial instrument to fair value is recognised directly in equity. The ineffective portion of any gain or loss is recognised immediately in the consolidated profit and loss account.

If a hedge of a forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, the associated gain or loss is reclassified from equity to be included in the initial cost or other carrying amount of the non-financial asset or liability.

If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gain or loss is reclassified from equity to the consolidated profit and loss account in the same period or periods during which the asset acquired or liability assumed affects the consolidated profit and loss account (such as when interest income or expense is recognised).

For cash flow hedges, other than those covered by the preceding two policy statements, the associated gain or loss is reclassified from equity to the consolidated profit and loss account in the same period or periods during which the hedged forecast transaction affects the consolidated profit and loss account.

When a hedging instrument expires or is sold, terminated or exercised, or the entity revokes designation of the hedge relationship but the hedged forecast transaction is still expected to occur, the cumulative gain or loss at that point remains in equity until the transaction occurs and it is recognised in accordance with the above policy. If the hedged transaction is no longer expected to take place, the cumulative unrealised gain or loss is reclassified from equity to the consolidated profit and loss account immediately.

**(iii) Hedge of net investment in a foreign operation**

The portion of the gain or loss on remeasurement to fair value of an instrument used to hedge a net investment in a foreign operation that is determined to be an effective hedge is recognised directly in equity until the disposal of the foreign operation, at which time the cumulative gain or loss is reclassified from equity to the consolidated profit and loss account. The ineffective portion is recognised immediately in the consolidated profit and loss account.

**i) Leased assets**

An arrangement comprising a transaction or a series of transactions is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

**(i) Classification of leased assets**

Assets that are held by the Group under leases which transfer to the Group substantially all the risks and rewards of ownership are classified as being held under finance leases. Leases which do not transfer substantially all the risks and rewards of ownership to the Group are classified as operating leases, with the following exceptions:

Property held under operating leases that would otherwise meet the definition of an investment property is classified as an investment property on a property-by-property basis and, if classified as an investment property, is accounted for as if held under a finance lease (see note (d)(i)); and

Land held for own use under an operating lease, the fair value of which cannot be measured separately from the fair value of a building situated thereon at the inception of the lease, is accounted for as being held under a finance lease, unless the building is also clearly held under an operating lease. For these purposes, the inception of the lease is the time that the lease was first entered into by the Group, or taken over from the previous lessee.

**(ii) Assets held under operating leases**

Where the Group has the use of assets held under operating leases, payments made under the leases are charged to the consolidated profit and loss account in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognised in the consolidated profit and loss account as an integral part of the aggregate net lease payments made. Contingent rentals are charged to the consolidated profit and loss account in the accounting period in which they are incurred.

The cost of acquiring land held under an operating lease is recognised as interest in leasehold land in the balance sheet and amortised on a straight line basis over the period of the lease term except where the property is classified as an investment property (see note (d)(i)) or is properties under development for sale (see note (l)(ii)).

**(iii) Assets held under finance leases**

Where the Group acquires the use of assets under finance leases, the amounts representing the fair value of the leased asset, or, if lower, the present value of the minimum lease payments, of such assets are included in fixed assets and the corresponding liabilities, net of finance charges, are recorded as obligations under finance leases. Depreciation is provided at rates which write off the cost or valuation of the assets over the term of the relevant lease or, where it is likely the Group will obtain ownership of the asset, the life of the asset, as set out in note (e). Impairment losses are accounted for in accordance with the accounting policy as set out in note (k)(ii). Finance charges implicit in the lease payments are charged to the consolidated profit and loss account over the period of the leases so as to produce an approximately constant periodic rate of charge on the remaining balance of the obligations for each accounting period. Contingent rentals are charged to the consolidated profit and loss account in the accounting period in which they are incurred.

### **j) Programming library**

Programming library consists of presentation rights for commissioned programmes and acquired programmes for showing on the Group's television channels, and commissioned programmes and films for licensing purposes.

Presentation rights are stated in the balance sheet at cost less accumulated amortisation (where the estimated useful life is other than indefinite) and any impairment losses. Amortisation is charged to profit or loss on an accelerated basis over the licence period or over the estimated number of future showings. Subsequent expenditure on programmes after initial acquisition is recognised as an expense when incurred. Cost of in-house programmes are written-off in the period in which they are incurred.

Commissioned programmes and films for licensing purposes comprise direct production costs and production overheads, and are stated at the lower of amortised cost or net realisable value. Costs are amortised on an individual programme/film basis in the ratio of the current period's gross revenues to management's forecast of the total ultimate gross revenues from all sources.

Both the period and method of amortisation are reviewed annually.

### **k) Impairment of assets**

#### **(i) Impairment of investments in debt and equity securities and other receivables**

Investments in debt and equity securities (other than investments in subsidiaries, associates and jointly controlled entities) and other current and non-current receivables that are stated at cost or amortised cost or are classified as available-for-sale investments are reviewed at each balance sheet date to determine whether there is objective evidence of impairment. If any such evidence exists, any impairment loss is determined and recognised as follows:

For unquoted equity securities carried at cost, the impairment loss is measured as the difference between the carrying amount of the financial asset and the estimated future cash flows, discounted at the current market rate of return for a similar financial asset where the effect of discounting is material. Impairment losses arising on equity securities are not reversed (including those provided during the interim financial reporting).

For trade and other current receivables and other financial assets carried at amortised cost, the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition of these assets) where the effect of discounting is material.

If in a subsequent period the amount of an impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through the consolidated profit and loss account. A reversal of an impairment loss shall not result in the asset's carrying amount exceeding that which would have been determined had no impairment loss been recognised in prior years.

For available-for-sale investments, the cumulative loss that has been recognised directly in equity is reclassified from equity to the consolidated profit and loss account. The amount of the cumulative loss that is recognised in the consolidated profit and loss account is the difference between the acquisition cost (net of any principal repayment and amortisation) and current fair value, less any impairment loss on that asset previously recognised in the consolidated profit and loss account.

Impairment losses recognised in the consolidated profit and loss account in respect of available-for-sale equity investments are not reversed through the consolidated profit and loss account. Any subsequent increase in the fair value of such assets is recognised directly in the investment revaluation reserves in equity.

Impairment losses are written off against the corresponding assets directly, except for impairment losses recognised in respect of trade receivables whose recovery is considered doubtful but not remote. In this case, the impairment losses for doubtful debts are recorded using an allowance account. When the Group is satisfied that recovery is remote, the amount considered irrecoverable is written off against trade receivables directly and any amounts held in the allowance account relating to that debt are reversed. Subsequent recoveries of amounts previously charged to the allowance account are reversed against the allowance account. Other changes in the allowance account and subsequent recoveries of amounts previously written off directly are recognised in the consolidated profit and loss account.

**(ii) Impairment of other assets**

The carrying amounts of non-current assets, other than properties carried at revalued amounts and deferred tax assets, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the recoverable amount is estimated.

**Recoverable amount**

The recoverable amount of an asset is the greater of its fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

**Recognition of impairment losses**

An impairment loss is recognised as an expense in the consolidated profit and loss account whenever the carrying amount exceeds the recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit (or group of units) and then, to reduce the carrying amount of the other assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs to sell, or value in use, if determinable.

### Reversals of impairment losses

In respect of assets other than goodwill, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed (including those provided during the interim financial reporting).

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to the consolidated profit and loss account in the year in which the reversals are recognised.

### Interim financial reporting and impairment

Under the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited, the Group is required to prepare an interim financial report in compliance with HKAS 34, Interim financial reporting, in respect of the first six months of the financial year. At the end of the interim period, the Group applies the same impairment testing, recognition, and reversal criteria as it would at the end of the financial year.

Impairment losses recognised in an interim period in respect of goodwill, available-for-sale equity securities and unquoted equity securities carried at cost are not reversed in a subsequent period. This is the case even if no loss, or a smaller loss, would have been recognised had the impairment been assessed only at the end of the financial year to which the interim period relates. Consequently, if the fair value of an available-for-sale equity security increases in the remainder of the annual period, or in any other period subsequently, the increase is recognised directly in equity and not in the consolidated profit and loss account.

## **I) Properties for sale**

### **(i) Completed properties for sale**

Completed properties for sale are stated at the lower of cost and net realisable value. Cost is determined by apportionment of the total development costs, including finance costs capitalised, attributable to unsold units. Net realisable value is estimated by the management, based on prevailing market conditions which represents the estimated selling price less costs to be incurred in selling the property. Cost of completed properties held for sale comprises all costs of purchase, costs of conversion and costs incurred in bringing the inventories to their present location and condition.

The amount of any write down or provision for completed properties for sale is recognised as an expense in the period the write down or loss occurs. The amount of any reversal of any write down or provision arising from an increase in net realisable value is recognised in the consolidated profit and loss account in the period in which the reversal occurs.

**(ii) Properties under development for sale**

Properties under development for sale are classified as current assets and stated at the lower of cost and net realisable value. Cost includes identified costs including the acquisition cost of land, aggregate cost of development, borrowing costs capitalised, material and supplies, wages, other direct expenses and an appropriate proportion of overheads. Net realisable value is estimated by the management, taking into account the expected price that can ultimately be achieved, based on prevailing market conditions and the anticipated costs of completion and costs to be incurred in selling the property.

The amount of any write down of or provision for properties under development for sale is recognised as an expense in the period the write down or loss occurs. The amount of any reversal of any write down or provision arising from an increase in net realisable value is recognised in the consolidated profit and loss account in the period in which the reversal occurs.

**m) Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost comprises all costs of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realisable value is estimated by the management, based on the expected selling price in the ordinary course of business less the anticipated costs of completion and the estimated costs necessary to make the sale.

**n) Trade and other receivables**

Trade and other receivables are initially recognised at fair value and thereafter stated at amortised cost less allowance for impairment of bad and doubtful debts, except where the receivables are interest-free loans made to related parties without any fixed repayment terms or the effect of discounting would be immaterial. In such cases, the receivables are stated at cost less allowance for impairment of bad and doubtful debts.

**o) Interest-bearing borrowings**

Interest-bearing borrowings for which there is a hedging relationship with a derivative financial instrument, which does not qualify for hedge accounting are initially recognised at fair value less transaction costs. At each balance sheet date the fair value is remeasured and any change in fair value is recognised in the consolidated profit and loss account.

Other interest-bearing borrowings are initially recognised at fair value less transaction costs. Subsequent to initial recognition, the interest-bearing borrowings are stated at amortised cost with any difference between the amount initially recognised and redemption value being recognised in the consolidated profit and loss account over the period of the borrowings together with any interest and fees payable using the effective interest method.

**p) Trade and other payables**

Trade and other payables are initially recognised at fair value and subsequently stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

### q) **Cash and cash equivalents**

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated cash flow statement.

### r) **Foreign currencies**

Foreign currency transactions during the year are translated into Hong Kong dollars at the exchange rates ruling at the transaction dates. Monetary foreign currency balances and the balance sheets of overseas subsidiaries, associates and jointly controlled entities are translated into Hong Kong dollars at the exchange rates ruling at the balance sheet date. The profit and loss accounts of overseas subsidiaries, associates and jointly controlled entities are translated into Hong Kong dollars at the monthly weighted average exchange rates for the year. Differences arising from the translation of the financial statements of overseas subsidiaries, associates and jointly controlled entities, and those arising from foreign currency borrowings used to hedge a net investment in a foreign operation, are dealt with in a separate component of equity. The exchange differences arising from the financing of properties under development by foreign currency borrowings are capitalised as part of the development costs. All other exchange differences are dealt with in the consolidated profit and loss account. On disposal of an overseas subsidiary, associate or jointly controlled entity, the cumulative amount of the exchange differences recognised in equity which relate to that overseas subsidiary, associate or jointly controlled entity, is included in the calculation of the profit or loss on disposal. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was determined.

### s) **Recognition of revenue**

Provided it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably, revenue is recognised in the consolidated profit and loss account as follows:

- (i) Rental income under operating leases is recognised in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the use of leased asset. Lease incentives granted are recognised as an integral part of the aggregate net lease payments receivable. Contingent rentals are recognised as income in the accounting period in which they are earned.
- (ii) Income arising from the sale of properties held for sale is recognised upon the execution of the formal sale and purchase agreement or the issue of occupation permit/completion certificate by the relevant government authorities, whichever is taken to be the point in time when the risk and rewards of ownership of the property have passed to the buyer. Deposits and instalments received on properties sold prior to the date of revenue recognition are included in the balance sheet under deposits from sale of properties.

(iii) Income from communications, media and entertainment operations, logistics operations and hotels operations is recognised at the time when the services are provided.

(iv) Dividend income from unlisted investments is recognised when the shareholder's right to receive payment is established.

Dividend income from listed investments is recognised when the share price of the investment goes ex-dividend.

(v) Interest income is recognised as it accrues using the effective interest method.

(vi) Income received in advance attributable to long term service contracts is deferred and recognised over the contract period on a straight line basis.

**t) Borrowing costs**

Borrowing costs are expensed in the consolidated profit and loss account in the period in which they are incurred, except to the extent that they are capitalised as being directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or complete.

**u) Income tax**

(i) Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in the consolidated profit and loss account except to the extent that they relate to items recognised directly in equity, in which case they are recognised in equity.

(ii) Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

(iii) Deferred tax assets and liabilities arise from deductible and taxable temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the tax bases respectively. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from certain limited exceptions, all deferred tax liabilities and all deferred tax assets, to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may be capable to support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences.

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purposes and the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided that they are not part of a business combination).

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at each balance sheet date and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

- (iv) Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities if, and only if, the Group has the legally enforceable right to set off current tax assets against current tax liabilities.

### v) **Related parties**

For the purposes of these financial statements, a party is considered to be related to the Group if:

- (i) the party has the ability, directly or indirectly through one or more intermediaries, to control the Group or exercise significant influence over the Group in making financial and operating policy decisions, or vice versa, or has joint control over the Group;
- (ii) the Group and the party are subject to common control;
- (iii) the party is an associate of the Group or a joint venture in which the Group is a venturer;
- (iv) the party is a member of key management personnel of the Group or the Group's parent, or a close family member of such an individual, or is an entity under the control, joint control or significant influence of such individuals;
- (v) the party is a close family member of a party referred to in (i) or is an entity under the control, joint control or significant influence of such individuals; or

- (vi) the party is a post-employment benefit plan which is for the benefit of employees of the Group or of any entity that is a related party of the Group.

Close family members of an individual are those family members who may be expected to influence, or be influenced by, that individual in their dealings with the entity.

**w) Financial guarantees issued, provisions and contingent liabilities**

**(i) Financial guarantees issued**

Financial guarantees are contracts that require the issuer (i.e. the guarantor) to make specified payments to reimburse the beneficiary of the guarantee (the "holder") for a loss the holder incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument.

Where the Group issues a financial guarantee, the fair value of the guarantee (being the transaction price, unless the fair value can otherwise be reliably estimated) is initially recognised as deferred income within trade and other payables. Where consideration is received or receivable for the issuance of the guarantee, the consideration is recognised in accordance with the Group's policies applicable to that category of asset. Where no such consideration is received or receivable, an immediate expense is recognised in profit or loss on initial recognition of any deferred income.

**(ii) Other provisions and contingent liabilities**

Provisions are recognised for other liabilities of uncertain timing or amount when the Group or the Company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

**x) Segment reporting**

A segment is a distinguishable component of the Group that is engaged in providing products or services (business segment), or in providing products, or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

In accordance with the Group's internal financial reporting, the Group has chosen business segment information as the primary reporting format and geographical segment information as the secondary reporting format.

Segment revenue, expenses, results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis to that segment. Segment revenue, expenses, assets and liabilities are determined before intra-group balances and intra-group transactions are eliminated as part of the consolidation process, except to the extent that such intra-group balances and transactions are between group companies within a single segment. Inter-segment pricing is based on similar terms as those available to other external parties.

Segment capital expenditure is the total cost incurred during the period to acquire segment assets (both tangible and intangible) that are expected to be used for more than one period.

Unallocated items mainly comprise financial and corporate assets, interest-bearing borrowings and corporate and financing expenses.

### **y) Employee benefits**

#### **(i) Defined benefit pension schemes**

The Group's net obligation in respect of defined benefit pension schemes is calculated separately for each scheme by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine the present value and the fair value of any scheme assets is deducted. The discount rate is the yield at the balance sheet date on high quality corporate bonds that have maturity dates approximating the terms of the Group's obligations. The calculation is performed using the projected unit credit method.

When the benefits of a scheme are improved, the portion of the increased benefit relating to past service by employees is recognised as an expense in the consolidated profit and loss account on a straight line basis over the average period until the benefits become vested. If the benefits vest immediately, the expense is recognised immediately in the consolidated profit and loss account.

Any actuarial gains and losses are fully recognised in equity in the period they occur.

Where the calculation of the Group's net obligation results in a negative amount, the asset recognised is limited to the present value of any future refunds from the scheme or reductions in future contributions to the scheme less past service cost.

**(ii) Shared based payments**

The fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in a capital reserve within equity. The fair value is measured at grant date using the Black-Scholes option-pricing model, taking into account the terms and conditions upon which the options were granted. Where the employees have to meet vesting conditions before becoming unconditionally entitled to the options, the total estimated fair value of the share options is spread over the vesting period, taking into account the probability that the options will vest.

During the vesting period, the number of share options that is expected to vest is reviewed. Any resulting adjustment to the cumulative fair value recognised in prior years is charged/credited to the consolidated profit and loss account for the year of the review, unless the original employee expenses qualify for recognition as an asset, with a corresponding adjustment to the capital reserve. On vesting date, the amount recognised as an expense is adjusted to reflect the actual number of options that vest (with a corresponding adjustment to the capital reserve) except where forfeiture is only due to not achieving vesting conditions that relate to the market price of the Company's shares. The equity amount is recognised in the capital reserve until either the option is exercised (when it is transferred to the share premium account) or the option expires (when it is released directly to revenue reserves).

**(iii) Short term employee benefits and contributions to defined contribution retirement plans**

Salaries, annual bonuses, paid annual leave, leave passage, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees of the Group. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

**(iv) Central Provident Fund in Singapore**

Contributions to the Central Provident Fund in Singapore as required under the Central Provident Fund Act are charged to the consolidated profit and loss account when incurred.

**z) Significant accounting estimates and judgements**

**Key sources of estimation uncertainty**

Notes 19 and 22 contain information about the assumptions and their risk relating to defined benefit retirement obligations and financial instruments. Other key sources of estimation uncertainty are as follows:

**(i) Valuation of investment properties**

Investment properties are included in the balance sheet at their open market value, which is assessed annually by independent qualified valuers, after taking into consideration the net income allowing for reversionary potential.

The assumptions adopted in the property valuations are based on the market conditions existing at the balance sheet date, with reference to current market sales prices and the appropriate capitalisation rate.

### **(ii) Assessment of useful economic lives for depreciation of fixed assets**

In assessing the estimated useful lives of fixed assets, management takes into account factors such as the expected usage of the asset by the Group based on past experience, the expected physical wear and tear (which depends on operational factors), technical obsolescence arising from changes or improvements in production or from a change in the market demand for the product or service output of the asset. The estimation of the useful life is a matter of judgement based on the experience of the Group.

Management reviews the useful lives of fixed assets annually, and if expectations are significantly different from previous estimates of useful economic lives, the useful lives and, therefore, the depreciation rate for the future periods will be adjusted accordingly.

### **(iii) Assessment of impairment of non-current assets**

Management assesses the recoverable amount of each asset based on its value in use (using relevant rates) or on its net selling price (by reference to market prices), depending upon the anticipated future plans for the asset. Estimating the value in use of an asset involves estimating the future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal and applying the appropriate discount rate to these future cash flows. Cash flow projections for remaining useful life of the asset and the most recent financial budgets/forecasts are approved by management.

### **(iv) Assessment of provision for properties for sale**

Management determines the net realisable value of completed properties for sale by using (i) prevailing market data such as most recent sale transactions and market survey reports available from independent property valuers; and (ii) internal estimates of costs based on quotes by suppliers.

Management's assessment of net realisable value of properties under development for sale requires the application of a risk-adjusted discount rate to estimate future discounted cash flows to be derived from the properties under development for sale. These estimates require judgement as to the anticipated sale prices by reference to recent sale transactions in nearby locations, rate of new property sales, marketing costs (including price discounts required to stimulate sales) and the expected costs to completion of properties, the legal and regulatory framework and general market conditions. The Group's estimates may be inaccurate, and estimates may need to be adjusted in later periods.

### **(v) Recognition of deferred tax assets**

The recognition of deferred tax assets requires formal assessment by the Group of the future profitability of related operations. In making this judgement, the Group evaluates, amongst other factors, the forecast financial performance, changes in technology and operational and financing cashflows.

*Notes:*

- a) *Investment property surplus on revaluation is after deferred tax and minority interests.*
- b) *The Company changed its financial year end date from 31 March to 31 December at the end of 2007. Accordingly, the Company's financial year 2007 covered nine months ended 31 December 2007 but consolidated the financial statement for Wharf for full calendar year 2007.*
- c) *The Company changed its accounting policy on consolidation as explained in note 2(a) to the 2007 financial statements. Figures for the year of 2005/06 and prior years have not been restated to reflect this change as it would involve delays and expenses out of proportion to the benefit to equity shareholders.*
- d) *Certain figures have been reclassified or restated to comply with the prevailing HKFRSs.*
- e) *Return on shareholders' equity is based on profit attributable to shareholders over average shareholders' equity during the year.*
