

CORPORATE GOVERNANCE REPORT

(A) Corporate Governance Structure

The Group's current corporate governance, risk management and internal control framework can be diagrammatically shown as below:

(B) Corporate Governance Practices

During the financial year ended 31 December 2015, all the code provisions set out in the Corporate Governance Code (the "CG Code") in Appendix 14 of the Rules (the "Listing Rules") Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Stock Exchange") were met by the Company, with the exception of two deviations, namely, (i) Code Provision A.2.1 (the "First Deviation") providing for the roles of the chairman and chief executive to be performed by different individuals; and (ii) Code Provision F.1.3 (the "Second Deviation") providing for the company secretary to report to the board chairman or the chief executive.

The reason for the First Deviation from the relevant Code Provision is stated under section (E) below. Regarding the Second Deviation, the Company Secretary of the Company has for some years directly reported to, and continues to report to, the Deputy Chairman of the Company, which is considered appropriate and reasonable given the size of the Group. In the view of the Directors, this reporting arrangement in no way adversely affects the efficient discharge by the Company Secretary of his job duties.

(C) Directors' Securities Transactions

A set of the Company's own code of conduct was adopted by the Company prior to the financial year under review to govern Directors' securities transactions (the "Company's Code") with terms thereof being no less exacting than the required standard set out in the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") in Appendix 10 of the Listing Rules. The Company has made specific enquiry of all Directors of the Company, and all the Directors have complied with the required standard set out in the Model Code and/or the Company's Code during the financial year.

(I) Composition of the Board, Number of Board/General Meetings and Directors' Attendance

The Company's Board has a balance of skills, experience and diversity of perspectives appropriate to the requirements of the Company's business, and a balanced composition of executive and non-executive directors. Richard Y S Tang	4/4	1/1
Kenneth W S Ting	2/4	1/1
Nancy S L Tse	4/4	0/1
Glenn S Yee	3/4	0/1

Each Director of the Company has been appointed on the strength of his/her calibre, experience and stature, and his/her potential to contribute to the proper guidance of the Group and its businesses. Apart from formal meetings, matters requiring Board approval were arranged by means of circulation of written resolutions.

During the year ended 31 December 2015, the Chairman of the Company held a meeting with the Non-executive Directors (including Independent Non-executive Directors ("INED(s)")) without the presence of the executive Directors.

The Chairman of the Company, namely, Mr Douglas C K Woo, is the son of Mr Peter K C Woo, who was formerly the Senior Director of the Company until 19 May 2015.

(II) Operation of the Board

The Company is headed by an effective Board which makes decisions objectively in the interests of the Company. The Company's management has closely monitored changes to regulations that affect its corporate affairs and businesses, and changes to accounting standards, and adopted an appropriate reporting format in its interim report, annual report and other related documents to present a balanced, clear and comprehensible assessment of the Group's performance, position and prospects. Where these changes are pertinent to the Company or Directors' disclosure obligations, the Directors are either briefed during Board meetings or issued with regular updates and materials to keep them abreast of their responsibilities and of the conduct, business activities and development of the Group. Newly appointed Directors receive briefings and orientation on their legal and other responsibilities as a Director and the role of the Board. The Company has also provided appropriate information in a timely manner to the Directors to enable them to make an informed decision and to discharge their duties and responsibilities as Directors of the Company.

There is a clear division of responsibilities between the Board and the management. Decisions on important matters are specifically reserved to the Board while decisions on the Group's general operations are delegated to the management. Important matters include those affecting the Group's strategic policies, major investment and funding decisions and major commitments relating to the Group's operations.

(III) Directors' Continuous Professional Development

The Company has arranged for Directors to attend training sessions which place emphasis on the roles, functions and duties of a listed company director. In addition to the training arranged by the Company, some of the Directors also received training organised by other companies and provided records thereof to the Company.

According to the records of training maintained by the Company Secretary, during the financial year under review, all the current Directors pursued continuous professional development and relevant details are set out below:

(E) Chairman and Chief Executive

Mr Douglas C K Woo serves as the Chairman and also as the *de facto* chief executive of the Company. This is a deviation from Code Provision A.2.1 with respect to the roles of chairman and chief executive to be performed by different individuals. Such deviation is deemed appropriate as it is considered to be more efficient to have one single person to be the Chairman of the Company as well as to discharge the executive functions of a chief executive. The Board of Directors believes that the balance of power and authority is adequately ensured by the operations of the Board which comprises experienced and high calibre individuals, with more than half of them being INEDs.

Furthermore, the Chairman is supported by Deputy Chairman Mr Stephen T H Ng, Vice Chairman Mr Stewart C K Leung, Executive Director & Group Chief Financial Officer Mr Paul Y C Tsui and Director Mr Ricky K Y Wong. The Chairman is responsible for the Board, focuses on Group strategies and Board issues, ensures a cohesive working relationship between members of the Board and management, and also in his capacity as *de facto* chief executive, he directly has responsibilities in certain major business units of the Group.

CORPORATE GOVERNANCE REPORT (CONTINUED)

(F) Non-executive Directors

All those existing Directors of the Company who do not hold any executive office of the Company (including INEDs) have their respective terms of appointment coming to an end normally three years after their appointment to the Board or (in the case of Directors who were re-elected to the Board at previous Annual General Meetings) their last re-election as Directors. The re-election of each of those INEDs who has served on the Board for more than nine years is subject to (i) a separate resolution to be approved by Shareholders at the relevant Annual General Meeting; and (ii) further information being given to Shareholders together with the notice of meeting regarding the reasons why the Board believes the relevant Director is still independent and should be re-elected.

(I) Risk Management & Internal Control Systems

(I) Risk Governance Structure

The Board has overall responsibilities for the Group's risk management and internal control systems to safeguard the interests of the Company and its shareholders as a whole. To this end, the Board oversees and approves the Group's risk management and internal control strategies and policies, which are aimed at evaluating and determining the nature and extent of the risks that are compatible with the Group's strategic objectives and risk appetite, with main purpose for provision of reasonable assurance against material misstatement or loss rather than absolute elimination of the risk of failure to achieve business objectives.

Reporting to the Board, the AC is delegated with the authority and responsibility for ongoing monitoring and evaluation of the effectiveness of the relevant systems with assistance of the Risk Management and Internal Control Committee. In November 2015, the terms of reference of the AC were updated to formally incorporate risk management into its scope of duties.

In adherence to its long standing principle for prudent management, the Group has put in place a robust and inclusive framework to manage risks at different business operations in diversified segments within the organization.

Risk Management and Internal Control Committee ("RMICC")

In 2015, RMICC was formally established to replace the former Internal Control Committee as an initiative to further enhance the Group's risk management and internal control systems. It was principally an evolution from the pre-existing internal control framework, which has been in operation ever since 2004, comprising the divisional internal control committees of the business units and various control functional departments at corporate level, including, *inter alia*, Finance Committee, Project Cost Audit Department and Financial Audit Department.

Under the enhanced framework, RMICC plays a central role in the ongoing management of risk management and internal control systems of the Group with the following features:

Objective	Assist the AC in discharge of its oversight responsibility over risk management and internal control systems of the Group.
Composition	Chaired by Mr Paul Y C Tsui Three other members comprising Mr Stewart C K Leung, Mr Ricky K Y Wong and Mr Horace W C Lee
Structure	Accountable to the AC on all matters relating to risk management and internal control.

CORPORATE GOVERNANCE REPORT (CONTINUED)

	<p>Supervision on Divisional Risk Management and Internal Control Committees (“DRMICCs”) which in turn are responsible for the identification and reporting of functional risks, and the ongoing supervision and monitoring of the risk management and internal control systems.</p>
Scope & Duties	<p>Assist the AC to conduct periodical reviews of the effectiveness of the risk management and internal control systems of the Group based on the certification procedure as further explained below.</p> <p>Report to the AC on identified risks, relevant evaluations and risk management strategy.</p> <p>Direct and monitor the proper functioning of DRMICCs and report to the AC on any major internal control issues from time to time.</p> <p>Assume an advisory role on objective settings, formulation of internal control framework, policies and procedures.</p>

DRMICCs are set up at the level of business units with composition of the respective key management staff together with those charged with the internal control functions. Acting as divisional advisory bodies, DRMICCs are entrusted with implementation of the Group’s control policies and on-going assessment of control activities in the relevant business units.

(II) Practices & Processes

As a conglomerate with diversified range of business activities, the Group is operating in dynamic environments with varying risk exposures according to different business segments. Risk management and internal controls within the Group are not just serial process but dynamic and integrated operations embedded in the day-to-day routines with the primary ownership vested on the respective business units under stewardship residing with the Board.

Areas of responsibility of each operational unit are clearly defined with specific limits of authority in place to ensure effective checks and balances. Procedures have been designed for safeguarding assets against unauthorised use or disposition, maintenance of proper accounting records, assurance of the reliability of financial information for internal use or publication and compliance with relevant legislation and regulations. Risk management system, internal control measures and procedures are continuously under review and being improved where necessary in response to changes in business, operating and regulatory environments.

Furthermore, Whistleblowing Policy & Procedures (“WPP”) have been adopted by the Group, with the authority and responsibility being delegated to the AC. Such WPP are for employees and those who deal with the Group (e.g. customers and suppliers) to raise concerns, in confidence, with the Company Secretary, and any and all relevant complaints received may then be referred to the Deputy Chairman and Group Chief Financial Officer or the AC of the Company about possible improprieties in any matter related to the Group.

The internal audit function monitors compliance with policies and standards and the effectiveness of internal control structures across the whole Group. Findings regarding internal control matters are reported to the AC. The external auditors have access to a full set of internal audit reports.

(III) Periodical Reviews

Under the leadership of RMICC, system reviews in a comprehensive approach on basis of COSO (Committee of Sponsoring Organizations of the Treadway Commission) framework is conducted throughout the Group at least annually. Each business unit, through the co-ordination of DRMICCs, makes a self-assessment by a process as illustrated in the following flow diagram.

DRMICCs report on their reviews and findings, with the conclusions as to the effectiveness of the risk management and control activities of each individual business unit, while RMICC will draw an overall review and conclusion for reporting to the AC and the Board. Such reviewing exercise is carried out on regular basis and affords good opportunities for the Group to identify and prioritize risks, and to develop and manage appropriate measures to control risks within acceptable levels and with a greater focus on anti-fraud measures.

(IV) Annual Confirmation

During the financial year ended 31 December 2015, the AC, with assistance of RMICC and DRMICCs, has conducted a review of the effectiveness of the Group's internal control system and procedures covering all controls, including financial, operational and compliance and risk management, and the adequacy of, *inter alia*, resources, qualifications, experience and training of staff of the Group's accounting and financial reporting function. Confirmations from management in the form of certification that risk management and internal control procedures are functioning effectively to meet the respective financial reporting, operational and compliance needs, are submitted by business and corporate unit heads to RMICC for consolidation and reporting to the AC.

Based on the result of the review as reported by the AC, in respect of the financial year ended 31 December 2015, the Directors considered that the risk management and internal control systems and procedures of the Group were effective and adequate.
